**Biology Letters Editor**

Professor B. Charlesworth

---

**Editorial Board**

K. Arnold, Division of Environmental and Evolutionary Biology, University of Glasgow

J. Bergelson, Department of Ecology and Evolution, University of Chicago

D. Blumstein, Department of Ecology and Evolutionary Biology, University of California, Los Angeles

L. Bromham, Department of Biological Sciences, University of Sussex

C. Catchpole, School of Biological Sciences, Royal Holloway, University of London

T. Cavalier-Smith, Department of Zoology, University of Oxford

T. Chapman, Department of Biology, University College London

T. Clutton-Brock, Department of Zoology, University of Cambridge

H. Ellegren, Avdelningen for Evolutionssbiologi, Uppsala University

R. Fortey, Department of Palaeontology, The Natural History Museum, London

V. French, Institute of Cell, Animal and Population Biology, University of Edinburgh

C. Frith, Wellcome Department of Cognitive Neurology, University College London

D. Haydon, Division of Environmental and Evolutionary Biology, University of Chicago

L. Keller, Zoologisches Museum, Universität Zürich

A. S. Kondrashov, National Institutes of Health, Bethesda, Maryland

C. Nunn, Department of Integrative Biology, University of California, Berkeley

S. Otto, Department of Zoology, University of British Columbia

J. Pannell, Department of Plant Sciences, University of Oxford

M. Rausher, Department of Biology, Duke University

M. Ritchie, Department of Environmental and Evolutionary Biology, University of St Andrews

S. Otto, Department of Zoology, University of British Columbia

T. Chapman, Department of Biology, University College London

T. Clutton-Brock, Department of Zoology, University of Cambridge

H. Ellegren, Avdelningen for Evolutionssbiologi, Uppsala University

R. Fortey, Department of Palaeontology, The Natural History Museum, London

V. French, Institute of Cell, Animal and Population Biology, University of Edinburgh

---

**Aims & Scope**: Biology Letters is a primarily online, peer-reviewed journal that publishes short, high-quality papers from across the biological sciences. Articles of less than 2500 words (including references and figure captions) and up to 4 displays (figures and tables), of which no more than 2 should be figures, are considered. Additional information related to the article (e.g. large datasets) can be included as an electronic appendix. We aim to provide a decision on your paper within 6 weeks. Biology Letters are published initially on FirstView (see www.journals.royalsoc.ac.uk) and subsequently in a quarterly print archive.

**Submission**: Authors should prepare papers in accordance with our Instructions to Authors (see: http://www.pubs.royalsoc.ac.uk/resources/authors.shtml) and submit them electronically via our online submission service: http://e-pubs.royalsoc.ac.uk/

**Copyright**: © 2004 and 2005 The Royal Society

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, this publication may only be reproduced, stored or transmitted, in any form or by any other means, with the prior permission in writing of the publisher, or in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. In particular, the Society permits the making of a single photocopy of an article from this issue (under Sections 29 and 38 of this Act) for an individual for the purposes of research or private study.

**Subscriptions**: Biology Letters is published online with a quarterly print archive. The annual subscription price for online access including the print archive (and related postage cost) is given below.

**Prices**: 2005 calendar year
