Cyclicity in the fossil record mirrors rock outcrop area

Invasive exotic plants suffer less herbivory than non-invasive exotic plants.

Benefits of organic farming to biodiversity vary among taxa.

Expression of uncoupling protein and alternative oxidase depends on lipid or carbohydrate substrates.

Histology and affinity of the earliest armoured vertebrates.

Frequency-dependent taste-rejection by avian predation.

Regressive evolution of an eye pigment gene in thermogenic plants.

Does respiratory sinus arrhythmia occur in fishes?

Contrasts on plastic responses to climate variation in red deer.

Shrimps remove ectoparasites from fishes in temperate waters.

Among taxa, aposematic prey may select for defence chemical polymorphisms in independently evolved eyeless subterranean diving beetles.

Histology and affinity of the earliest armoured vertebrates.

Plant–plant interactions vary with different life histories.

Invasive exotic plants suffer less herbivory than non-invasive exotic plants.

The association between the fraternal birth order effect in male homosexuality and early developmental traits in passerine birds.

Cochran-Wilks test for homogeneity of variances.

Histology and affinity of the earliest armoured vertebrates.

Female Iberian wall lizards prefer male scents that signal a better cell-mediated immune response.

Infection density of Wolbachia endosymbiont affected by co-infection and host genotype.

Contrasts on plastic responses to climate variation in red deer.

The association between the fraternal birth order effect in male homosexuality and early developmental traits in passerine birds.

Cochran-Wilks test for homogeneity of variances.

Histology and affinity of the earliest armoured vertebrates.

Invasive exotic plants suffer less herbivory than non-invasive exotic plants.

The association between the fraternal birth order effect in male homosexuality and early developmental traits in passerine birds.

Cochran-Wilks test for homogeneity of variances.

Histology and affinity of the earliest armoured vertebrates.

Invasive exotic plants suffer less herbivory than non-invasive exotic plants.

The association between the fraternal birth order effect in male homosexuality and early developmental traits in passerine birds.

Cochran-Wilks test for homogeneity of variances.
