## Reviewers in 2016

---

R. W. Battarbee

---

Editor-in-Chief

 RWB, 0000-0003-3963-6228

The Editors of *Biology Letters* would like to thank all reviewers who have worked on papers published in the journal in volume 12 (2016). A survey conducted last year confirmed that most reviewers value recognition of their efforts by the journal and through services such as *Publons* which is integrated with *Biology Letters*.

To provide an opportunity for recognition, we list the names of all reviewers (unless they have opted out). This article is made permanent and citeable by its digital object identifier (DOI). We encourage you to quote your contribution in your applications for tenure and grants or other forms of research assessment. Where you have provided it, we have included your ORCID so your contribution can be unambiguously assigned to you.
