

## Editorial Board

**Brian Charlesworth, Editor**

School of Biological Sciences, University of Edinburgh

**Kate Arnold**

Division of Environmental and Evolutionary Biology, University of Glasgow

**Phoebe Barnard**

Global Change Research Group, Kirstenbosch Research Centre

**Joy Bergelson**

Department of Ecology and Evolution, University of Chicago

**Andrew Biewener**

Concord Field Station, Harvard University

**Daniel Blumstein**

Department of Ecology and Evolutionary Biology, University of California, Los Angeles

**Lindell Bromham**

School of Botany and Zoology, Australian National University

**Rob Brooks**

School of Biological, Earth and Environmental Sciences, University of New South Wales

**Clive Catchpole**

School of Biological Sciences, Royal Holloway, University of London

**Tom Cavalier-Smith**

Department of Zoology, University of Oxford

**Tracey Chapman**

Department of Biology, University College London

**Phil Clapham**

Alaska Fisheries Science Center, National Marine Mammal Laboratory

**Tim Clutton-Brock**

Department of Zoology, University of Cambridge

**Hans Ellegren**

Avdelningen för Evolutionsbiologi, Uppsala Universitet

**Richard Fortey**

Department of Palaeontology, The Natural History Museum, London

**Vernon French**

Institute of Cell, Animal and Population Biology, University of Edinburgh

**Chris Frith**

Wellcome Department of Cognitive Neurology, University College London

**Jacques Gauthier**

Division of Vertebrate Paleontology, Yale University

**Daniel Haydon**

Division of Environmental and Evolutionary Biology, University of Glasgow

**Joan Herbers**

Department of Evolution, Ecology and Organismal Biology, Ohio State University

**Lukas Keller**

Zoologisches Museum, Universität Zürich

**Thomas Kocher**

Hubbard Center for Genome Studies, University of New Hampshire

**Alexey Kondrashov**

National Center for Biotechnology Information, National Institutes of Health, Bethesda, Maryland

**Richard Lenski**

Microbiology and Molecular Genetics, Michigan State University

**Alun Lloyd**

Department of Mathematics, North Carolina State University

**Johanna Mappes**

Department of Biological and Environmental Science, University of Jyväskylä

**Charles Nunn**

Primatology, Max Planck Institut für Evolutionäre Anthropologie, Leipzig

**Sarah Otto**

Department of Zoology, University of British Columbia

**John Pannell**

Department of Plant Sciences, University of Oxford

**Mark Rausher**

Department of Biology, Duke University

**Mike Ritchie**

Department of Environmental and Evolutionary Biology, University of St Andrews

**Paul Schmid-Hempel**

Experimentelle Oekologie, ETH Zürich

**Richard Shine**

Department of Biological Sciences, University of Sydney

**AIMS AND SCOPE**

Launched as an independent journal in 2005 *Biology Letters* is a primarily online, peer-reviewed journal that publishes short, high-quality articles from across the biological sciences. The scope of *Biology Letters* is vast: publishing high-quality research in any area of the biological sciences. However, we have particular strengths in the biology, evolution and ecology of whole organisms. Articles submitted to *Biology Letters* benefit from its broad scope and readership, dedicated media promotion and an average turnaround time of 6 weeks to first decision. The journal is particularly suited to research that requires high visibility due to its cross-disciplinary nature or novel findings.

Copyright © 2006 The Royal Society

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, this publication may only be reproduced, stored or transmitted, in any form or by any other means, with the prior permission in writing of the publisher, or in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. In particular, the Society permits the making of a single photocopy of an article from this issue (under Sections 29 and 38 of this Act) for an individual for the purposes of research or private study.

**SUBSCRIPTIONS**

In 2007 *Biology Letters* (ISSN 1744-9561) will be published bimonthly, with six issues a year. Full details of subscriptions may be obtained on request from the Subscription Sales Department, The Royal Society, 6–9 Carlton House Terrace, London SW1Y 5AG. Tel +44 (0)20 7451 2646; fax +44 (0)20 7976 1837; email: sales@royalsoc.ac.uk. The Royal Society is Registered Charity No 207043

Subscription prices 2007 calendar year	Europe	USA & Canada	All other countries
<i>Biology Letters</i> print plus electronic access	£658/US\$1216	£686/US\$1268	£716/US\$1320

Typeset in Europe by the Alden Group, Oxford. Printed by Latimer Trend, Plymouth.

This paper meets the requirements of ISO 9706:1994(E) and ANSI/NISO Z39.48-1992 (Permanence of Paper) effective with volume 1, issue 1, 2005.

*Biology Letters* (ISSN No: 1744-9561) is published quarterly by the Royal Society and distributed in the USA by DSW, 75 Aberdeen Road, Emigsville PA 17318-0437. Application to mail at periodicals rates is pending at Emigsville PA. POSTMASTER: send address changes to *Biology Letters* c/o PO Box 437 Emigsville PA 17318-0437.
