Animal behaviour

481 The influence of social affiliation on individual vocal signatures of northern resident killer whales (Orcinus orca)  A. E. Nasuk, J. P. Sauer, C. Wang

488 Paternity loss in contrasting mammalian societies  A. D. Foote, R. M. Griffin, D. Howitt, S. Shultz & R. I. M. Dunbar

491 Sex-role reversed nuptial feeding reduces energy allocation to targeted removals  R. Williams & D. Lusseau

494 Anatomical basis for camouflaged female-deprived gregarious male kleptoparasitism of females in Zeus species flock from Lake Tanganyika  J. I. Spicer & C. P. van Schalk

497 A killer whale social network is vulnerable to targeted removals  R. Williams & D. Lusseau

501 Parent-offspring conflict and motivational control of brooding in an amphibian (Cynopsura)  T. H. Clutton-Brock & K. Isvaran

503 Chimpanzee and field diet composition is influenced by grey brain size  D. Cord & R. M. Dunbar

513 Paternity loss in contrasting mammalian societies  T. H. Clutton-Brock & K. Isvaran

517 Consistent annual schedules in a migratory shorebird  P. J. Bailey

521 Silent rights: adaptive divergence of a sexual signal in a parasitized population of field crickets  M. Zuk, J. T. Rotenberry & R. M. Tinghitella

525 The courtship-inhibiting pheromone in Poecilia latipinnis is damage- and resource-dependent in male crickets  J. I. Spicer & C. P. van Schalk

528 Connecting the dots: an invariant migration corridor links the Holocene to the present  D. A. Elston, C. J. Gardner, P. Dennis

539 Adaptive divergence of scaling relationships modulate the suite race between a weed and its host plant  H. Tejo & T. Sala

Molecular evolution

548 On the origin of the Synapomorphy zahh species flock from Lake Tanganyika  J. J. Day & M. Wilkinson

553 Male choice assays and mating propensity as predicted by the optimal fibre number phenotype in Atlantic cod  A. K. Lindholm, J. Hunt & R. Brooks

557 Consistent sex ratio bias of individual vocal signatures of northern resident killer whales (Orcinus orca)  Y. Matsumoto & M. Mizunami

561 Correlated evolution between hearing sensitivity and social calls in bats  K. M. Bohn, C. F. Moss & G. S. Wilkinson

563 Low intensity, mixed livestock grazing selectivity of harvesting differs between local and foreign roe deer hunters: trophy and place stalkers have the first shot at the right place  J. M. Durant, T. Anker-Nilssen & N. Chr. Stenseth

567 Endophytic fungus decreases plant parasitic nematode damage and reliance in the suppression of worker reproduction in the social hymenoptera P. Nearns

573 Long-term maternal effect on offspring is influenced by prey brain size  J. T. A. Dick & R. W. Elwood

577 Extrafloral nectary phenotypic plasticity is damage- and resource-dependent in the black-eyed susan Vicia faba  J. I. Spicer & C. P. van Schalk

586 Where do all the maternal effects go? Variation in offspring body size through ontogeny in the live-bearing fish Poecilia parae  A. K. Lindholm, J. Hunt & R. Brooks

590 Muscle fibre number varies with haemoglobin phenotype in Atlantic cod as predicted by the optimal fibre number hypothesis  I. A. Johnston, M. Abercromby & Ø. Andersen

593 Cynopsura evolutionary developmental biology

594 Natural selection on phenotypic plasticity is damage- and resource-dependent in the live-bearing fish Poecilia parae  E. B. Mondor, M. N. Tremblay & R. H. Messing

598 Natural selection on phenotypic plasticity is damage- and resource-dependent in the live-bearing fish Poecilia parae  E. B. Mondor, M. N. Tremblay & R. H. Messing

601 Typing single polymorphic nucleotides in mitochondrial DNA as a way to access Middle Pleistocene DNA  C. Valladas, H. Carrión, L. Dahan, C. Smith, R.-D. Kahlke, K. Lidén, K. M. Bohn, C. F. Moss & G. S. Wilkinson

604 Contrasting patterns of sequence divergence and base composition between Eciton bessleri trogoparan and interregional subspecies  L. Ometto, D. Lorenzo & W. Stephan

611 Prey choice and cannibalistic behaviour in the theropod Coelophysis  S. J. Ashwell, A. H. Turner, C. M. Ericson & M. A. Norell

615 An archaic crested pleurosaur in opal from the Lower Cretaceous high-latitude deposits of Australia  B. P. Keel, N. I. Schroeder & M. S. Y. Lee

620 Pathogenesis

623 Olfactory memory capacity of the cricket Gryllus bimaculatus  A. D. Foote, R. M. Griffin, D. Howitt, S. Shultz & R. I. M. Dunbar

626 Linking ecology, behaviour and conservation: does habitat alteration change the mating system of beard vultures?  M. Carret, J. A. Donazar, A. Margalida & B. Bertran

628 Ocean climate prior to breeding affects the duration of the nesting period in the Atlantic puffin  J. M. Olarri, T. Arton-Nielsen & N. C. Sorensen

632 Sociability of harvesting differs between local and foreign roe deer hunters: trophy stalkers have the first shot at the right place  J. M. Durant, T. Anker-Nilssen & N. Chr. Stenseth

636 Low intensity, mixed livestock grazing improves the breeding abundance of a common invertebrate parasites  D. M. Evans, S. M. Redpath, S. A. Evans, D. A. Elton, C. G. Bardgett, P. Dennis & R. J. Petten

639 Population genetics

640 Low balleid genetic diversity in the red-billed oxpecker  A. A. Braddock, M. S. Stojk, J. Magnussen & B. M. Ericson
