End of the second volume
Animal behaviour

Antiphonal four-part synchronized chorusing in a Neotropical wren
By N. I. Mann, K. A. Dingess and P. J. B. Slater 1

‘Eavesdropping’ in wild rough-toothed dolphins (Steno bredanensis)?

Larger swordtail females prefer asymmetrical males
By M. R. Morris, O. Rios-Cardenas and M. S. Tudor 8

Defending against parasites: fungus-growing ants combine specialized behaviours and microbial symbionts to protect their fungus gardens

Kin competition promotes dispersal in a male pollinating fig wasp
By J. C. Moore, A. Loggenberg and J. M. Greeff 17

Avian mothers create different phenotypes by hormone deposition in their eggs
By C. M. Eising, W. Müller and T. G. G. Groothuis 20

Death feigning in the face of sexual cannibalism
By T. Bilde, C. Tuni, R. Elsayed, S. Pekár and S. Toft 23

African elephants show high levels of interest in the skulls and ivory of their own species
By K. McComb, L. Baker and C. Moss 26

Faecal glucocorticoid metabolites and alarm calling in free-living yellow-bellied marmots
By D. T. Blumstein, M. L. Patton and W. Saltzman 29

Sex and the single (-eared) female: leg function, limb autotomy and mating history trade-offs in field crickets (Gryllus bimaculatus)
By P. W. Bateman and P. A. Fleming 33

Effect of growth compensation on subsequent physical fitness in green swordtails Xiphophorus helleri
By N. J. Royle, J. Lindström and N. B. Metcalfe 39

Mass-dependent predation risk as a mechanism for house sparrow declines?
By R. MacLeod, P. Barnett, J. Clark and W. Cresswell 43

Biomechanics

Accounting for elite indoor 200 m sprint results
By J. R. Usherwood and A. M. Wilson 47

Community ecology

Caterpillars benefit from thermal ecosystem engineering by wandering albatrosses on sub-Antarctic Marion Island
By B. J. Sinclair and S. L. Chown 51

Passive internal dispersal of insect larvae by migratory birds
By A. J. Green and M. I. Sánchez 55

Evolutionary biology

Traumatic insemination in the plant bug genus Coridromius Signoret (Heteroptera: Miridae)
By N. J. Tarnatic, G. Cassis and D. F. Hochuli 58

Ageing and the evolution of female resistance to remating in seed beetles
By A. A. Maklakov, N. Kremer and G. Arñqvist 62

Doing the twist: a test of Darwin’s cross-pollination hypothesis for pollinarium reconfiguration
By C. I. Peter and S. D. Johnson 65

Latitudinal and longitudinal barriers in global biogeography
By S. Proches 69

Rapid evolution of sessility in an endemic species flock of the freshwater bivalve Corbicula from ancient lakes on Sulawesi, Indonesia
By T. von Rintelen and M. Glaubrecht 73

Strategic sperm allocation under parasitic sex-ratio distortion
By A. M. Dunn, T. Andrews, H. Ingrey, J. Riley and N. Wedell 78

The influence of phenotypic and genetic effects on maternal provisioning and offspring weight gain in mice
By R. Hager and R. A. Johnstone 81

Local differentiation in the presence of gene flow in the citril finch Serinus citrinella
By J. C. Senar, A. Borras, J. Cabrera, T. Cabrera and M. Björklund 85
## Marine biology
A comparative study of the anti-settlement properties of mytilid shells  
By A. V. Bers, G. S. Prendergast, C. M. Zürn, L. Hansson, R. M. Head and J. C. Thomason 88  
Larval development and settlement of a whale barnacle  
By Y. Nogata and K. Matsumura 92  
Modelling the extinction of Steller’s sea cow  
By S. T. Turvey and C. L. Risley 94

## Neurobiology
Apis mellifera bees acquire long-term olfactory memories within the colony  
By M. Gil and R. J. De Marco 98  
Moving from spatially segregated to transparent motion: a modelling approach  
By S. Durant, A. Donoso-Barrera, S. Tan and A. Johnston 101  
High olfactory sensitivity for dimethyl sulphide in harbour seals  
By S. Kowalewsky, M. Dambach, B. Mauck and G. Dehnhardt 106

## Palaeontology
Dinosaur killer claws or climbing crampons?  
By P. L. Manning, D. Payne, J. Pennicott, P. M. Barrett and R. A. Ennos 110  
First gut contents in a Cretaceous sea turtle  
By B. P. Kear 113  
A primitive protostegid from Australia and early sea turtle evolution  
By B. P. Kear and M. S. Y. Lee 116

## Phylogeny
Solution to the phylogenetic enigma of Tetraplatia, a worm-shaped cnidarian  
By A. G. Collins, B. Bentlage, G. I. Matsumoto, S. H. D. Haddock, K. J. Osborn and B. Schierwater 120

## Physiology
The scaling and temperature dependence of vertebrate metabolism  
By C. R. White, N. F. Phillips and R. S. Seymour 125  
Emergence of sperm from female storage sites has egg-influenced and egg-independent phases in Drosophila melanogaster  
By M. C. Bloch Qazi and M. F. Wilfner 128  
Hummingbirds rely on both paracellular and carrier-mediated intestinal glucose absorption to fuel high metabolism  
By T. J. McWhorter, B. Hartman Bakken, W. H. Karasov and C. M. Martinez del Rio 131  
Physiological constraints on organismal response to global warming: mechanistic insights from clinally varying populations and implications for assessing endangerment  
By J. Bernardo and J. R. Spotila 135

## Population ecology
Effects of genetically modified herbicide-tolerant cropping systems on weed seedbanks in two years of following crops  
Marine lake ecosystem dynamics illustrate ENSO variation in the tropical western Pacific  
By L. E. Martin, M. N. Dawson, L. J. Bell and P. L. Colin 144  
Predicting the consequences of carry-over effects for migratory populations  
By D. R. Norris and C. M. Taylor 148

## Population genetics
Genetic diversity in butterflies: interactive effects of habitat fragmentation and climate-driven range expansion  
By J. K. Hill, C. L. Hughes, C. Dytham and J. B. Searle 152  
Early history of European domestic cattle as revealed by ancient DNA  
By R. Bollongino, C. J. Edwards, K. W. Alt, J. Burger and D. G. Bradley 155

## no. 2 22 June 2006

## Animal behaviour
Permanent female mimics in a lekking shorebird  
By J. Jukema and T. Piersma 161  
Mauritian coloured nectar no longer a mystery: a visual signal for lizard pollinators  
By D. M. Hansen, K. Beer and C. B. Müller 165

Ultraviolet signals fighting ability in a lizard
By J. Stapley and M. J. Whiting 169

Ultraviolet reflectance by the cere of raptors
By F. Mougeot and B. E. Arroyo 173

Experimental shift in hosts’ acceptance threshold of inaccurate-mimic brood parasite eggs
By M. E. Hauber, C. Moskát and M. Bán 177

Pregnancy weight gain: marmoset and tamarin dads show it too

Community ecology
Protected areas and regional avian species richness in South Africa

Novel chemistry of invasive exotic plants
By N. Cappuccino and J. T. Arnason 189

Promotion of harmful algal blooms by zooplankton predatory activity
By A. Mitra and K. J. Flynn 194

Evolutionary biology
Fees or refuges: which is better for the sustainable management of insect resistance to transgenic Bt corn?
By C. Vacher, D. Bourguet, M. Desquilbet, S. Lemarie, S. Ambec and M. E. Hochberg 198

The role of model female quality in the mate choice copying behaviour of sailfin mollies
By S. E. Hill and M. J. Ryan 203

Limited male incubation ability and the evolution of egg size in shorebirds
By T. Lislevand and G. H. Thomas 206

As you reap, so shall you sow: coupling of harvesting and inoculating stabilizes the mutualism between termites and fungi
By D. K. Aanen 209

Malarial parasites as geographical markers in migratory birds?
By S. M. Fallon, R. C. Fleischer and G. R. Graves 213

Bare skin, blood and the evolution of primate colour vision
By M. A. Changizi, Q. Zhang and S. Shimojo 217

Vibrational signalling in a Gondwanan relict insect (Hemiptera: Coleorrhyncha: Peloridiidae)
By H. Hoch, J. Deckert and A. Wessel 222

Mothers determine offspring size in response to own juvenile growth conditions
By B. Taborsky 225

Sex allocation theory aids species conservation
By B. C. Robertson, G. P. Elliott, D. K. Eason, M. N. Clout and N. J. Gemmell 229

Inbreeding avoidance through non-random mating in sticklebacks
By J. G. Frommen and T. C. M. Bakker 232

Mutations of intermediate effect are responsible for adaptation in evolving Pseudomonas fluorescens populations
By R. D. H. Barrett, R. C. MacLean and G. Bell 236

Sperm numbers vary between inter- and intra-population matings of the grasshopper Chorthippus parallelus
By K. Reinhardt 239

Mosquito repellents in frog skin
By C. R. Williams, B. P. C. Smith, S. M. Best and M. J. Tyler 242

Sperm design and sperm function
By A. F. Malo, M. Gomendio, J. Garde, B. Lang-Lenton, A. J. Soler and E. R. S. Roldan 246

Positive assortative mating between recently described sympatric morphs of Icelandic sticklebacks
By G. A. Olafsdottir, M. G. Ritchie and S. S. Snorrasron 250

Early experience and parent-of-origin-specific effects influence female reproductive success in mice
By R. Hager and R. A. Johnstone 253

Marine biology
Occurrence and recent long-distance dispersal of deep-sea hydrothermal vent shrimps
By G. Tokuda, A. Yamada, K. Nakano, N. Arita and H. Yamasaki 257

Neurobiology
Spontaneous processing of abstract categorical information in the ventrolateral prefrontal cortex
By Y. E. Cohen, M. D. Hauser and B. E. Russ 261

Palaeontology
Comparing amber fossil assemblages across the Cenozoic
By D. Penney and A. M. Langan 266

Pathogen biology
Bovine tuberculosis in cattle: reduced risk on wildlife-friendly farms
By F. Mathews, L. Lovett, S. Rushton and D. W. Macdonald 271

Phylogeny
Reinterpreting the origins of flamingo lice: cospeciation or host-switching?
By K. P. Johnson, M. Kennedy and K. G. McCracken 275

Physiology
Toxicity of diclofenac to *Gyps* vultures

Can predatory bird feathers be used as a non-destructive biomonitoring tool of organic pollutants?
By V. L. B. Jaspers, S. Voorspoels, A. Covaci and M. Eens 283

Direct uptake of soil nitrogen by mosses
By E. Ayres, R. van der Wal, M. Sommerkorn and R. D. Bardgett 286

Population ecology
Global climate drives southern right whale (*Eubalaena australis*) population dynamics
By R. Leaper, J. Cooke, P. Trathan, K. Reid, V. Rowntree and R. Payne 289

An analytical model assessing the potential threat to natural habitats from insect resistance transgenes: continuous transgene input
By C. K. Kelly, M. Bowler and F. Breden 293

Environmental pollution has sex-dependent effects on local survival
By T. Eeva, H. Hakkarainen, T. Laaksonen and E. Lehikoinen 298

Stable isotope evidence of diverse species-specific and individual wintering strategies in seabirds
By Y. Cherel, R. A. Phillips, K. A. Hobson and R. McGill 301

Heterosis, the catapult effect and establishment success of a colonizing bird
By J. M. Drake 304

Population genetics
Isolation and genetic diversity of endangered grey nurse shark (*Carcharias taurus*) populations
By A. Stow, K. Zenger, D. Briscoe, M. Gillings, V. Peddemors, N. Otway and R. Harcourt 308

Genetic consequences of sex-biased dispersal in a solitary carnivore: Yellowstone cougars

Bottlenecked but long-lived: high genetic diversity retained in white-tailed eagles upon recovery from population decline
By F. Hailer, B. Helander, A. O. Folkestad, S. A. Ganusevich, S. Garstad, P. Hauff, C. Koren T. Nygård, V. Volke, C. Viîa and H. Ellegren 316

no. 3 22 September 2006

Animal behaviour
Decaying wood is a sodium source for mountain gorillas
By J. M. Rothman, P. J. Van Soest and A. N. Pell 321

Simple rules guide dragonfly migration

A male sexually dimorphic trait provides antimicrobials to eggs in blenny fish
By E. Giacomello, D. Marchini and M. B. Rasotto 330

Egg colour reflects the amount of yolk maternal antibodies and fledging success in a songbird
By J. Morales, J. J. Sanz and J. Moreno 334

Social cues facilitate habitat selection: American redstarts establish breeding territories in response to song
By B. A. Hahn and E. D. Silverman 337

Genetic association between male attractiveness and female differential allocation
By M. L. Head, J. Hunt and R. Brooks 341

Food imprinting, new evidence from the cuttlefish *Sepia officinalis*
By A.-S. Darmaillacq, R. Chichery and L. Dickel 345

Avian predators taste–reject aposematic prey on the basis of their chemical defence
By J. Skelhorn and C. Rowe 348

Ranging patterns and parasitism in primates
By C. L. Nunn and A. T.-W. Dokey 351

Cooperative growth regulation in coral-dwelling fishes
By P. L. Munday, A. M. Cardoni and C. Syms 355
Clonal reproduction and genetic caste differences in a queen-polymorphic ant, *Vollenhovia emeryi*
By K. Ohkawara, M. Nakayama, A. Satoh, A. Trindl and J. Heinze

Limited food induces nepotism in drywood termites
By J. Korb

Imitating the neighbours: vocal dialect matching in a mimic–model system
By D. A. Putland, J. A. Nicholls, M. J. Noad and A. W. Goldizen

**Biomechanics**

Ballooning dispersal in arthropod taxa with convergent behaviours: dynamic properties of ballooning silk in turbulent flows
By A. M. Reynolds, D. A. Bohan and J. R. Bell

**Community ecology**

Non-omnivorous generality promotes population stability
By T. N. Romanuk, B. E. Beisner, N. D. Martinez and J. Kolasa

**Evolutionary biology**

Long-term sex reversal by oestradiol in amniotes with heteromorphic sex chromosomes
By S. Freedberg, R. M. Bowden, M. A. Ewert, D. R. Sengelaub and C. E. Nelson

One day is enough: rapid and specific host–parasite interactions in a stickleback-trematode system
By G. Rauch, M. Kalbe and T. B. H. Reusch

Infanticide by subordinates influences reproductive sharing in cooperatively breeding meerkats
By A. J. Young and T. Clutton-Brock

Assembly of the eastern North American herpetofauna: new evidence from lizards and frogs

Immune challenge retards seasonal reproductive regression in rodents: evidence for terminal investment
By Z. M. Weil, L. B. Martin, J. L. Workman and R. J. Nelson

Seed size variability: from carob to carats
By L. A. Turnbull, L. Santamaria, T. Martorell, J. Rallo and A. Hector

Evolution of ‘pollinator’- attracting signals in fungi
By F. P. Schiestl, F. Steinebrunner, C. Schulz, S. von Reuß, W. Francke, C. Weymuth and A. Leuchtmann

Convergent adaptation to a marginal habitat by homoploid hybrids and polyploid ecds in the seaweed genus *Fucus*

Male dominance determines female egg laying rate in crickets
By A. Bretman, R. Rodríguez-Muñoz and T. Tregenza

Cues of being watched enhance cooperation in a real-world setting
By M. Bateson, D. Nettle and G. Roberts

**Marine biology**

Acoustic detection and satellite-tracking leads to discovery of rare concentration of endangered North Pacific right whales

Intersex in the clam *Scrobicularia plana*: a sign of endocrine disruption in estuaries?
By B. S. Chesman and W. J. Langston

Smelly feet are not always a bad thing: the relationship between cyprid footprint protein and the barnacle settlement pheromone
By C. Dreanno, R. R. Kirby and A. S. Clare

**Molecular evolution**

Inferring the distribution of mutational effects on fitness in *Drosophila*
By L. Loewe and B. Charlesworth

Anecdotes, data and regulatory modules
By J. E. Balmer and R. Blomhoff

Levels of linkage disequilibrium in a wild bird population
By N. Backström, A. Qvarnström, L. Gustafsson and H. Ellegren

**Palaeontology**

Crab scars reveal survival advantage of left-handed snails
By G. P. Dietl and J. R. Hendricks
Oldest coelacanth, from the Early Devonian of Australia

Oldest true orb-weaving spider (Araneae: Araneidae)
By D. Penney and V. M. Ortuno 447

Ancient DNA forces reconsideration of evolutionary history of Mediterranean pygmy elephantids
By N. Poulakakis, A. Parmakelis, P. Lymberakis, M. Mylonas, E. Zouros, D. S. Reese, S. Glaberman and A. Caccione 451

Pathogen biology
The emerging amphibian pathogen Batrachochytrium dendrobatidis globally infects introduced populations of the North American bullfrog, Rana catesbeiana

Is Mycobacterium bovis in the environment important for the persistence of bovine tuberculosis?

Enhancement of bacterial competitive fitness by apramycin resistance plasmids from non-pathogenic Escherichia coli
By C. M. Yates, D. J. Shaw, A. J. Roe, M. E. J. Woolhouse and S. G. B. Amyes 463

Phylogeny
Mid-Pleistocene divergence of Cuban and North American ivory-billed woodpeckers

High level of cryptic species diversity revealed by sympatric lineages of Southeast Asian forest frogs
By B. L. Stuart, R. F. Inger and H. K. Voris 470

Physiology
Guttural pouches, brain temperature and exercise in horses
By G. Mitchell, A. Fuller, S. K. Maloney, N. Rump and D. Mitchell 475

Long-term effects of manipulated natal brood size on metabolic rate in zebra finches
By S. Verhulst, M.-J. Holveck and K. Riebel 478

Animal behaviour
The influence of social affiliation on individual vocal signatures of northern resident killer whales (Orcinus orca)
By A. E. Nousek, P. J. B. Slater, C. Wang and P. J. O. Miller 481

Rotational feeding in caecilians: putting a spin on the evolution of cranial design
By G. J. Measey and A. Herrel 485

Avian predators attack aposematic prey more forcefully when they are part of an aggregation
By J. Skelhorn and G. D. Ruxton 488

Sex-role reversed nuptial feeding reduces male kleptoparasitism of females in Zeus bugs (Heteroptera; Veliidae)
By G. Arnbqvist, T. M. Jones and M. A. Elgar 491

Anatomical basis for camouflaged polarized light communication in squid
By L. M. Mathger and R. T. Hanlon 494

A killer whale social network is vulnerable to targeted removals
By R. Williams and D. Lusseau 497

Parent-offspring conflict and motivational control of brooding in an amphipod (Crustacea)
By J. T. A. Dick and R. W. Elwood 501

Chimpanzee and felid diet composition is influenced by prey brain size
By S. Shultz and R. J. M. Dunbar 505

Killer whales are capable of vocal learning
By A. D. Foote, R. M. Griffin, D. Howitt, L. Larsson, P. J. O. Miller and A. R. Hoelzel 509

Paternity loss in contrasting mammalian societies
By T. H. Clutton-Brock and K. Isvaran 513

Consistent annual schedules in a migratory shorebird
By P. F. Battley 517

Silent night: adaptive disappearance of a sexual signal in a parasitized population of field crickets
By M. Zuk, J. T. Rotenberg and R. M. Tinghitella 521

The courtship-inhibiting pheromone is ignored by female-deprived gregarious desert locust males
By K. Seidelmann 525

Contents

Community ecology
Connecting the dots: an invariant migration corridor links the Holocene to the present
By J. Berger, S. L. Cain and K. Murray Berger

Niche breadth and geographical range: ecological compensation for geographical rarity in rainforest frogs
By Y. M. Williams, S. E. Williams, R. A. Alford, M. Waycott and C. N. Johnson

Evolutionary biology
Sexual selection and its effect on the fixation of an asexual clone
By M. Salathé

Adaptive divergence of scaling relationships mediates the arms race between a weevil and its host plant
By H. Toju and T. Sota

Diversification of Neoaves: integration of molecular sequence data and fossils
J. I. Ohlson, T. J. Parsons, D. Zuccon and G. Mayr

On the origin of the Synodontis catfish species flock from Lake Tanganyika
By J. J. Day and M. Wilkinson

Mate choice assays and mating propensity differences in natural yeast populations
By H. A. Murphy, H. A. Kuehne, C. A. Francis and P. D. Sniegowski

Metabolic costs of brain size evolution
By K. Iser and C. P. van Schaik

Correlated evolution between hearing sensitivity and social calls in bats
By K. M. Bohn, C. F. Moss and G. S. Wilkinson

Insects from the grazing food web favoured the evolutionary habitat shift to bright environments in araneoid spiders
By T. Miyashita and A. Shimazaki

Consistent sex ratio bias of individual female dragon lizards
By T. Uller, B. Mott, G. Odierna and M. Olsson

Long-term maternal effect on offspring immune response in song sparrows Melospiza melodia
By J. M. Reid, P. Arcese, L. F. Keller and D. Hasselquist

Nepotism and brood reliability in the suppression of worker reproduction in the eusocial Hymenoptera
By P. Nonacs

Evolutionary developmental biology
Gut reaction by heartless shrimps: experimental evidence for the role of the gut in generating circulation before cardiac ontogeny
By J. I. Spicer

Extrafloral nectary phenotypic plasticity is damage- and resource-dependent in Vicia faba
By E. B. Mondor, M. N. Tremblay and R. H. Messing

Where do all the maternal effects go? Variation in offspring body size through ontogeny in the live-bearing fish Poecilia parae
By A. K. Lindholm, J. Hunt and R. Brooks

Marine biology
Muscle fibre number varies with haemoglobin phenotype in Atlantic cod as predicted by the optimal fibre number hypothesis
By I. A. Johnston, M. Abercromby and Ø. Andersen

A novel obligate cultivation mutualism between damselfish and Polysiphonia algae
By H. Hata and M. Kato

Fathers in hot water: rising sea temperatures and a Northeastern Atlantic pipefish baby boom
By R. R. Kirby, D. G. Johns and J. A. Lindley

Molecular evolution
Typing single polymorphic nucleotides in mitochondrial DNA as a way to access Middle Pleistocene DNA
By C. Valdiosera, N. García, L. Dalén, C. Smith, R.-D. Kahlke, K. Lidén, A. Angerbjörn
J. L. Arsuaga and A. Götherström

Contrasting patterns of sequence divergence and base composition between Drosophila introns and intergenic regions
By L. Ometto, D. De Lorenzo and W. Stephan

Neurobiology
Olfactory memory capacity of the cricket Gryllus bimaculatus
By Y. Matsumoto and M. Mizunami

Palaeontology
Prey choice and cannibalistic behaviour in the theropod Coelophysis
By S. J. Nesbitt, A. H. Turner, G. M. Erickson and M. A. Norell

An archaic crested plesiosaur in opal from the Lower Cretaceous high-latitude deposits of Australia
   By B. P. Kear, N. I. Schroeder and M. S. Y. Lee 615

Pathogen biology
Endophytic fungus decreases plant virus infections in meadow rye grass (Lolium pratense)
   By P. T. Lehtonen, M. Helander, S. A. Siddiqui, K. Lehto and K. Saikkonen 620

Population ecology
Linking ecology, behaviour and conservation: does habitat saturation change the mating system
   of bearded vultures?
   By M. Carrete, J. A. Donázar, A. Margalida and J. Bertran 624
Ocean climate prior to breeding affects the duration of the nestling period in the Atlantic puffin
   By J. M. Durant, T. Anker-Nilssen and N. Chr. Stenseth 628
Selectivity of harvesting differs between local and foreign roe deer hunters: trophy stalkers have the first
   shot at the right place
   By A. Mysterud, P. Tryjanowski and M. Panek 632
Low intensity, mixed livestock grazing improves the breeding abundance of a common insectivorous
   passerine
   By D. M. Evans, S. M. Redpath, S. A. Evans, D. A. Elston, C. J. Gardner, P. Dennis
   and R. J. Pakeman 636

Population genetics
Low worldwide genetic diversity in the basking shark (Cetorhinus maximus)
   By A. R. Hoelzel, M. S. Shivji, J. Magnussen and M. P. Francis 639

Indexes 643
