

## Animal behaviour

- 353 **Availability of non-carotenoid antioxidants affects the expression of a carotenoid-based sexual ornament**  
T. W. Pike, J. D. Blount, J. Lindström & N. B. Metcalfe
- 357 **It is time to move: linking flight and foraging behaviour in a diving bird**  
D. Pelletier, M. Guillemette, J.-M. Grandbois & P. J. Butler
- 360 **The uniquely human capacity to throw evolved from a non-throwing primate: an evolutionary dissociation between action and perception**  
J. N. Wood, D. D. Glynn & M. D. Hauser
- 365 **Violations of transitivity under fitness maximization**  
A. I. Houston, J. M. McNamara & M. D. Steer
- 368 **Daytime noise predicts nocturnal singing in urban robins**  
R. A. Fuller, P. H. Warren & K. J. Gaston
- 371 **From cradle to early grave: juvenile mortality in European shags *Phalacrocorax aristotelis* results from inadequate development of foraging proficiency**  
F. Daunt, V. Afanasyev, A. Adam, J. P. Croxall & S. Wanless
- 375 **Do carotenoids buffer testosterone-induced immunosuppression? An experimental test in a colourful songbird**  
K. J. McGraw & D. R. Ardia
- 379 **False promises: females spurn cheating males in a field cricket**  
W. E. Wagner Jr, A. R. Smith & A. L. Basolo
- 382 **Female red deer prefer the roars of larger males**  
B. D. Charlton, D. Reby & K. McComb
- 386 **Fitness increases with partner and neighbour allopreening**  
S. Lewis, G. Roberts, M. P. Harris, C. Prigmore & S. Wanless

## Community ecology

- 390 **Psychological benefits of greenspace increase with biodiversity**  
R. A. Fuller, K. N. Irvine, P. Devine-Wright, P. H. Warren & K. J. Gaston

## Evolutionary biology

- 395 **Extreme sex ratio variation in relation to change in condition around conception**  
E. Z. Cameron & W. L. Linklater
- 398 **Primates follow the 'island rule': implications for interpreting *Homo floresiensis***  
L. Bromham & M. Cardillo
- 401 **Twin intromittent organs of *Drosophila* for traumatic insemination**  
Y. Kamimura

- 405 **The benefits of bathing buds: water calyces protect flowers from a microlepidopteran herbivore**  
J. E. Carlson & K. E. Harms
- 408 **Costly steroids: egg testosterone modulates nestling metabolic rate in the zebra finch**  
M. Tobler, J.-Å. Nilsson & J. F. Nilsson
- 411 **An increase in pH boosts olfactory communication in sticklebacks**  
J. Heuschele & U. Candolin
- 414 **Elevated frequency of abnormalities in barn swallows from Chernobyl**  
A. P. Møller, T. A. Mousseau, F. de Lope & N. Saino
- 418 **Nestling immune response to phytohaemagglutinin is not heritable in collared flycatchers**  
N. Pitala, L. Gustafsson, J. Sendecka & J. E. Brommer
- 422 **Antimicrobial defences increase with sociality in bees**  
A. Stow, D. Briscoe, M. Gillings, M. Holley, S. Smith, R. Leys, T. Silberbauer, C. Turnbull & A. Beattie
- 425 **Virgin birth in a hammerhead shark**  
D. D. Chapman, M. S. Shivji, E. Louis, J. Sommer, H. Fletcher & P. A. Prodöhl
- 428 **The olfactory receptor gene repertoires in secondary-adapted marine vertebrates: evidence for reduction of the functional proportions in cetaceans**  
T. Kishida, S. Kubota, Y. Shirayama & H. Fukami
- 431 **Male soldier caste larvae are non-aggressive in the polyembryonic wasp *Copidosoma floridanum***  
D. Giron, J. A. Harvey, J. A. Johnson & M. R. Strand
- 435 **Kin recognition in an annual plant**  
S. A. Dudley & A. L. File

## Molecular evolution

- 439 **Positive natural selection has driven the evolution of the Hsp70s in *Diguetia* spiders**  
J. Starrett & E. R. Waters

## Physiology

- 445 **The mechanical power requirements of avian flight**  
G. N. Askew & D. J. Ellerby

## Population genetics

- 449 **Bayesian inference of population expansions in domestic bovines**  
E. K. Finlay, C. Gaillard, S. M. F. Vahidi, S. Z. Mirhoseini, H. Jianlin, X. B. Qi, M. A. A. El-Barody, J. F. Baird, B. C. Healy & D. G. Bradley

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science

Registered Charity No 207043
