Animal behaviour

453 Raising the level: orangutans use water as a tool
M. Manser, D. Handu & J. Call
456 Functionally independent components of grey capture are architecturally constrained in spider orb webs
T. A. Blackledge & C. M. Flann
459 Long-term memory of individual identity in ant queens
S. Dreier, J. S. van Zweden & P. D’Ettorre
463 Female preferences drive the evolution of mimicry accuracy in male sexual displays
S. W. Coleman, G. L. Patrício, B. Coley, J. Sander & C. Borges
467 Megapycnidae: acoustic click trains and buzzes produced during night-time mate locating displays (Megapycnidae nomenclature)
471 Individual recognition in crayfish (Cherax disp.) displays
T. A. Blackledge & C. M. Eliason
473 Smaller beetles are better scramble competitors at cooler temperatures
J. Moya-Laraño, M. E. T. D’Saied & C. W. Fox

Community ecology

479 Promotion of ecosystem carbon sequestration by invasive predators
D. A. Wardle, P. J. Bellingham, T. Falusi & C. P. H. Mulder
483 Species richness and abundance of forest birds in relation to radiation at Chernobyl
A. P. Medó & T. A. Mossová
487 Heterotrophic microbial communities use ancient carbon following glacial retreat

Evolutionary biology

491 Ions are made from old stores: sperm storage effects on sex ratio in a brawn
M. Olson, T. Schwartz, T. Tyler & M. Rudman
494 Frequency-dependent physiological trade-offs between competing colour morphs
S. B. Pyke, L. A. Bostrom, W. A. Britton & S. C. Goliff
498 Effects of age and gender on success and death of mountaineers on Mount Everest
R. R. Hunt, R. Salaberry, J.-Y. Wang & M. Miao
501 Symbiotic complexity: discovery of a fifth symbiont in the atline ant–microbe symbiosis
A. E. Little & C. B. Currie
503 Relative time scales reveal multiple origins of parallel diapause distributions of African cassava aphids
509 Things fall apart: biological species form disconnected parsimony networks
M. W. Hart & J. S. van Zweden
511 Worker caste determination in the army ant Ectithis burchelli
R. Jaffé, D. J. C. Konoraw, B. Kraus, J. J. Boomsma & F. A. J. Meeuwsen
517 Adaptive modulation of sperm morphology in the smooth newt (Lissotriton vulgaris), a species with giant sperm
A. Bork, P. Dalle & S. Pravak
520 Male crickets adjust ejaculate quality with both risk and intensity of sperm competition
L. W. Simmons, A. Denton, C. Jackson, E. Levy & E. Madon
521 Secondary chemosensory protect moul from fungus
R. Mott, M. Albert, N. P. Keller & J. Kempken
526 Genetic disimilarity predicts paternity in the smooth newt (Lissotriton vulgaris)
R. Jehle, M. Satzer, J. B. W. Wolf, A. Whitlock, W. Hödl & I. Burke

Global change biology

529 Climate-driven range expansion of a critically endangered top predator in northeast Atlantic waters

Marine biology

533 Climate change causing starvation in harbour porpoises?
535 Starvation and sandeel consumption in harbour porpoises in the Scottish North Sea
C. D. MacLeod, G. P. Pierce & M. Beugnot Santos
537 First human-caused extinction of a cetacean species?
541 Genetic bottlenecks and successful biological invasions: the case of a recent Russian migrant
D. Galani, F. Azman, M. Consist-Foka, M. Falabatou, F. Ardanillo & C. Bernardi

Molecular evolution

546 Evolution of Paspebida lactation strategies: a potential role for α-lactalbumin?
C. M. Rees & J. P. Arnould
550 Ancient human mitochondrialDNA genotypes from medieval England reveal lost variation over the last millennium

Palaeoecology

554 Rare and fleeting: an example of interannual recrystallization in animal mitochondrialDNA

Phylogeny

556 Same Inspire: A comment on Inward et al.
556 Response to Lo et al!
P. Eggertsen, G. Brecoulis & I. Barlow
556 Steady diversification of darter liverworts under Tertiary climatic fluctuations
R. Wilson, J. Heinrichs, J. Hentschel, S. R. Geymonat & H. Schneider

Population ecology

570 Aenroaemeteria (Plumbic Nematoma): when segments do not count
P. Sandberg & M. Strand
574 When cormorants go fishing: the differing costs of feeding for sediment and mobile prey

Population ecology

571 Increasing abundance of bowhead whales in the North Atlantic
M. P. Heide-Jørgensen, E. Ladiz, D. Bochenek, S. Sammar & H. Stein
571 Short-term climate change and the extinction of the snail Rhachistia extintio
(Gastropoda: Pulmonata)
S. R. Gradstein & H. Schneider

Physiology

574 When cormorants go fishing: the differing costs of feeding for sediment and mobile prey

Palaeontology

577 Phylogeny & M. Falautano, F. Andaloro & G. Bernardi
578 Increase of heterozygosity in a growing population of lesser kestrels
J. Ortego, J. M. Aparicio, G. Calabuig & P. J. Cordero
