

## Editorial Board

### Brian Charlesworth, Editor

School of Biological Sciences, University of Edinburgh

### Kathryn Arnold

Division of Environmental and Evolutionary Biology, University of Glasgow

### Phoebe Barnard

Global Change Research Group, Kirstenbosch Research Centre

### Joy Bergelson

Department of Ecology and Evolution, University of Chicago

### Andrew Biewener

Concord Field Station, Harvard University

### Daniel Blumstein

Department of Ecology and Evolutionary Biology, University of California, Los Angeles

### Lindell Bromham

School of Botany and Zoology, Australian National University

### Rob Brooks

School of Biological, Earth and Environmental Sciences, University of New South Wales

### Clive Catchpole

School of Biological Sciences, Royal Holloway, University of London

### Tom Cavalier-Smith

Department of Zoology, University of Oxford

### Tracey Chapman

School of Biological Sciences, University of East Anglia

### Phil Clapham

Alaska Fisheries Science Center, National Marine Mammal Laboratory

### Tim Clutton-Brock

Department of Zoology, University of Cambridge

### Tom Daniel

Biology Department, University of Washington

### Hans Ellegren

Avdelningen för Evolutionsbiologi, Uppsala Universitet

### Richard Fortey

Department of Palaeontology, The Natural History Museum, London

### Vernon French

Institute of Cell, Animal and Population Biology, University of Edinburgh

### Chris Frith

Wellcome Department of Cognitive Neurology, University College London

### Jacques Gauthier

Division of Vertebrate Paleontology, Yale University

### Daniel Haydon

Division of Environmental and Evolutionary Biology, University of Glasgow

### Joan Herbers

Department of Evolution, Ecology and Organismal Biology, Ohio State University

### Toby Johnson

Roslin Institute, Roslin Biocentre

### Lukas Keller

Zoologisches Museum, Universität Zürich

### Thomas Kocher

Hubbard Center for Genome Studies, University of New Hampshire

### Alexey Kondrashov

National Center for Biotechnology Information, National Institutes of Health, Bethesda, Maryland

### Richard Lenski

Microbiology and Molecular Genetics, Michigan State University

### Alun Lloyd

Department of Mathematics, North Carolina State University

### Johanna Mappes

Department of Biological and Environmental Science, University of Jyväskylä

### Chris Margules

Sustainable Ecosystems, CSIRO

### Charles Nunn

Primateology, Max Planck Institut für Evolutionäre Anthropologie, Leipzig

### Sarah Otto

Department of Zoology, University of British Columbia

### John Pannell

Department of Plant Sciences, University of Oxford

### Mark Rausher

Department of Biology, Duke University

### John Reynolds

Department of Biological Sciences, Simon Fraser University

### Mike Ritchie

Department of Environmental and Evolutionary Biology, University of St Andrews

### Paul Schmid-Hempel

Experimentelle Oekologie, ETH Zürich

### Richard Shine

Department of Biological Sciences, University of Sydney

### John Stachowicz

Section of Evolution and Ecology, UC Davis

### Wilfried Thuiller

Laboratoire d'Ecologie Alpine, CNRS

### AIMS AND SCOPE

Launched as an independent journal in 2005 *Biology Letters* is a primarily online, peer-reviewed journal that publishes short, high-quality articles from across the biological sciences. The scope of *Biology Letters* is vast: publishing high-quality research in any area of the biological sciences. However, we have particular strengths in the biology, evolution and ecology of whole organisms. Articles submitted to *Biology Letters* benefit from its broad scope and readership, dedicated media promotion and an average turnaround time of 6 weeks to first decision. The journal is particularly suited to research that requires high visibility due to its cross-disciplinary nature or novel findings.

### Copyright © 2007 The Royal Society

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, this publication may only be reproduced, stored or transmitted, in any form or by any other means, with the prior permission in writing of the publisher, or in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. In particular, the Society permits the making of a single photocopy of an article from this issue (under Sections 29 and 38 of this Act) for an individual for the purposes of research or private study.

### SUBSCRIPTIONS

In 2007 *Biology Letters* (ISSN 1744-9561) will be published bimonthly, with six issues a year. Full details of subscriptions may be obtained either by contacting our journal fulfilment agent, Portland Customer Services, Commerce Way, Colchester CO2 8HP; tel: +44 (0)1206 796351; fax: +44 (0)1206 799331; email: sales@portland-services.com or by visiting our website at publishing.royalsoc.ac.uk/subscribers. From 2007 personal subscriptions are available for this journal – see prices. Full ordering information can be obtained from Portland Customer Services. These rates apply to bona fide individual use only. They must be paid by personal cheque or credit card, and orders cannot be delivered to an institutional address. The Royal Society is Registered Charity No 207043

Subscription prices 2008 calendar year <i>Biology Letters</i> print plus electronic access	Europe	USA & Canada	All other countries
Institutional subscription	£756/US\$1398/ €1134	£789/US\$1458	£823/US\$1518
