Animal behaviour
589 Interspecific audience effects on the alarm-calling behaviour of a kleptoparasitic bird
592 Complexity and variation in loggerhead sea turtle life history
595 Re-plumbing in a Mediterranean sponge
599 Chimpanzees use self-distraction to cope with impulsivity
603 On the use of cellular telephony for audio interaction with animals
607 Larval rearing environment affects larval rearing environment affects
609 Evolutionary biology
642 A multiple-site similarity measure independent of richness
646 Two waves of diversification in mammals and reptiles of Baja California revealed by hierarchical Bayesian analysis
651 Function of weaponry in females: a species with male alternative cooperative breeding bird group size: trade-offs in a
655 Effects of metabolic rate on protein function of weaponry in females: a species with male alternative cooperative breeding bird group size: trade-offs in a
659 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
662 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
667 Strong parasitoid-mediated selection counters to prosocial behaviour in 1- to 9-year-old South Korean twins
670 Urban birds have broader environmental tolerances
674 Age-related changes in the cost of reproduction in vertebrates
677 Are we underestimating the diversity and incidence of insect bacterial symbionts? A case study in ladybird larvae
682 Voice pitch predicts reproductive success in male hunter-gatherers
685 Context-dependent genetic benefits of polyandry in a marine hermaphrodite
689 Parental age difference and offspring count in humans
692 Redundant sociality and parasite diversity
694 Ocean acidification disrupts induced defences in the intertidal gastropod Lithineus littoreus
699 Molecular evolution
702 Elevated substitution rates estimated from ancient DNA sequences
705 Absence of contagious yawning in children with autism spectrum disorder
706 Palaeontology
709 Miocene whale-fall from California revealed by hierarchical Bayesian analysis
712 The ‘lost years’ of green turtles: the use of horns in intrasexual competition for resources in female Soay sheep
715 Comment. Virgin birth, genetic and environmental contributions to prosocial behaviour in 1- to 9-year-old South Korean twins
717 Community ecology
638 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
640 Two waves of diversification in mammals and reptiles of Baja California revealed by hierarchical Bayesian analysis
645 Function of weaponry in females: a species with male alternative cooperative breeding bird group size: trade-offs in a
650 Effects of metabolic rate on protein function of weaponry in females: a species with male alternative cooperative breeding bird group size: trade-offs in a
654 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
657 Effects of metabolic rate on protein function of weaponry in females: a species with male alternative cooperative breeding bird group size: trade-offs in a
660 Genetic analysis of a wild-caught hybrid between non-sister Heliconius butterfly species
663 Strong parasitoid-mediated selection in experimental populations of aphids
666 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
669 Ocean acidification disrupts induced defences in the intertidal gastropod Lithineus littoreus
673 Age-related changes in the cost of reproduction in vertebrates
678 Are we underestimating the diversity and incidence of insect bacterial symbionts? A case study in ladybird larvae
681 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
684 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
687 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
690 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
693 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
696 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
699 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
701 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
704 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
707 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
710 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
713 Landscape context not patch size determines bumble-bee density on flower mixtures used for agri-
