

## Editorial Board

### Brian Charlesworth, Editor

School of Biological Sciences, University of Edinburgh

### Kathryn Arnold

Division of Environmental and Evolutionary Biology, University of Glasgow

### Phoebe Barnard

Global Change Research Group, Kirstenbosch Research Centre

### Andrew Biewener

Concord Field Station, Harvard University

### Daniel Blumstein

Department of Ecology and Evolutionary Biology, University of California, Los Angeles

### Lindell Bromham

School of Botany and Zoology, Australian National University

### John Brookfield

Institute of Genetics, University of Nottingham

### Rob Brooks

School of Biological, Earth and Environmental Sciences, University of New South Wales

### Richard Byrne

School of Psychology, University of St Andrews

### Josep Call

Max Planck Institute for Evolutionary Anthropology

### Clive Catchpole

School of Biological Sciences, Royal Holloway, University of London

### Tom Cavalier-Smith

Department of Zoology, University of Oxford

### Tracey Chapman

School of Biological Sciences, University of East Anglia

### Phil Clapham

Alaska Fisheries Science Center, National Marine Mammal Laboratory

### Tom Daniel

Biology Department, University of Washington

### Laurent Duret

Laboratoire Biométrie et Biologie Evolutive, CNRS

### Hans Ellegren

Avdelningen för Evolutionsbiologi, Uppsala Universitet

### Richard Fortey

Department of Palaeontology, The Natural History Museum, London

### Chris Frith

Wellcome Department of Cognitive Neurology, University College London

### Jacques Gauthier

Division of Vertebrate Paleontology, Yale University

### Jessica Gurevitch

Department of Ecology and Evolution, Stony Brook University

### Daniel Haydon

Division of Environmental and Evolutionary Biology, University of Glasgow

### Joan Herbers

Department of Evolution, Ecology and Organismal Biology, Ohio State University

### Toby Johnson

Roslin Institute, Roslin Biocentre

### Lukas Keller

Zoologisches Museum, Universität Zürich

### Thomas Kocher

Hubbard Center for Genome Studies, University of New Hampshire

### Hanna Kokko

Department of Biological and Environmental Sciences, University of Helsinki

### Alun Lloyd

Department of Mathematics, North Carolina State University

### Johanna Mappes

Department of Biological and Environmental Science, University of Jyväskylä

### Chris Margules

Sustainable Ecosystems, CSIRO

### Charles Nunn

Primateology, Max Planck Institut für Evolutionäre Anthropologie, Leipzig

### Sarah Otto

Department of Zoology, University of British Columbia

### John Pannell

Department of Plant Sciences, University of Oxford

### Mark Rausher

Department of Biology, Duke University

### Mike Ritchie

Department of Environmental and Evolutionary Biology, University of St Andrews

### Paul Schmid-Hempel

Experimentelle Oekologie, ETH Zürich

### Richard Shine

Department of Biological Sciences, University of Sydney

### Tom Smulders

School of Biology, University of Newcastle

### Paul Sniegowski

Department of Biology, University of Pennsylvania

### John Stachowicz

Section of Evolution and Ecology, UC Davis

### Wilfried Thuiller

Laboratoire d'Ecologie Alpine, CNRS

### SUBSCRIPTIONS

In 2009 *Biology Letters* (ISSN 1744-9561) will be published bimonthly, with six issues a year. Full details of subscriptions may be obtained either by contacting our journal fulfilment agent, Portland Customer Services, Commerce Way, Colchester CO2 8HP; tel: +44 (0)1206 796351; fax: +44 (0)1206 799331; email: sales@portland-services.com or by visiting our website at publishing.royalsociety.org/subscribers. From 2008 personal subscriptions are available for this journal – see prices. Full ordering information can be obtained from Portland Customer Services. These rates apply to bona fide individual use only. They must be paid by personal cheque or credit card, and orders cannot be delivered to an institutional address. The Royal Society is Registered Charity No 207043

### AIMS AND SCOPE

Launched as an independent journal in 2005 *Biology Letters* is a primarily online, peer-reviewed journal that publishes short, high-quality articles from across the biological sciences. The scope of *Biology Letters* is vast: publishing high-quality research articles and opinion pieces in any area of the biological sciences. However, we have particular strengths in the biology, evolution and ecology of whole organisms. Articles submitted to *Biology Letters* benefit from its broad scope and readership, dedicated media promotion and an average turnaround time of 4 weeks to first decision. The journal is particularly suited to research that requires high visibility due to its cross-disciplinary nature or novel findings.

Subscription prices 2009 calendar year <i>Biology Letters</i> print plus electronic access	Europe	USA & Canada	All other countries
Institutional subscription	£801/US\$1521/ €1041	£836/US\$1588	£872/US\$1656
Personal subscription	£144/€187	US\$290	£155/US\$294

Typeset in India by the Alden Group, Oxfordshire. Printed by Latimer Trend, Plymouth.

This paper meets the requirements of ISO 9706:1994(E) and ANSI/NISO Z39.48-1992 (Permanence of Paper) effective with volume 1, issue 1, 2005.

*Biology Letters* (ISSN No: 1744-9561) is published six times a year by the Royal Society and distributed in the USA by DSW, 75 Aberdeen Road, Emigsville PA 17318-0437.

Periodicals postage paid at Emigsville, PA. POSTMASTER: send address changes to *Biology Letters*, PO Box 437, Emigsville PA 17318-0437.
