

Editorial Board

Brian Charlesworth, Editor

School of Biological Sciences, University of Edinburgh

Kathryn Arnold

Division of Environmental and Evolutionary Biology, University of Glasgow

Phoebe Barnard

Global Change Research Group, Kirstenbosch Research Centre

Andrew Biewener

Concord Field Station, Harvard University

Daniel Blumstein

Department of Ecology and Evolutionary Biology, University of California, Los Angeles

Lindell Bromham

School of Botany and Zoology, Australian National University

John Brookfield

Institute of Genetics, University of Nottingham

Rob Brooks

School of Biological, Earth and Environmental Sciences, University of New South Wales

Richard Byrne

School of Psychology, University of St Andrews

Josep Call

Max Planck Institute for Evolutionary Anthropology

Clive Catchpole

School of Biological Sciences, Royal Holloway, University of London

Tom Cavalier-Smith

Department of Zoology, University of Oxford

Tracey Chapman

School of Biological Sciences, University of East Anglia

Phil Clapham

Alaska Fisheries Science Center, National Marine Mammal Laboratory

Tom Daniel

Biology Department, University of Washington

Laurent Duret

Laboratoire Biométrie et Biologie Evolutive, CNRS

Hans Ellegren

Avdelningen för Evolutionsbiologi, Uppsala Universitet

Richard Fortey

Department of Palaeontology, The Natural History Museum, London

Chris Frith

Wellcome Department of Cognitive Neurology, University College London

Jacques Gauthier

Division of Vertebrate Paleontology, Yale University

Jessica Gurevitch

Department of Ecology and Evolution, Stony Brook University

Daniel Haydon

Division of Environmental and Evolutionary Biology, University of Glasgow

Joan Herbers

Department of Evolution, Ecology and Organismal Biology, Ohio State University

Toby Johnson

Roslin Institute, Roslin Biocentre

Lukas Keller

Zoologisches Museum, Universität Zürich

Thomas Kocher

Hubbard Center for Genome Studies, University of New Hampshire

Hanna Kokko

Department of Biological and Environmental Sciences, University of Helsinki

Alun Lloyd

Department of Mathematics, North Carolina State University

Johanna Mappes

Department of Biological and Environmental Science, University of Jyväskylä

Chris Margules

Sustainable Ecosystems, CSIRO

Charles Nunn

Primateology, Max Planck Institut für Evolutionäre Anthropologie, Leipzig

Sarah Otto

Department of Zoology, University of British Columbia

John Pannell

Department of Plant Sciences, University of Oxford

Mark Rausher

Department of Biology, Duke University

Mike Ritchie

Department of Environmental and Evolutionary Biology, University of St Andrews

Paul Schmid-Hempel

Experimentelle Oekologie, ETH Zürich

Richard Shine

Department of Biological Sciences, University of Sydney

AIMS AND SCOPE

Launched as an independent journal in 2005 *Biology Letters* is a primarily online, peer-reviewed journal that publishes short, high-quality articles from across the biological sciences. The scope of *Biology Letters* is vast: publishing high-quality research articles and opinion pieces in any area of the biological sciences. However, we have particular strengths in the biology, evolution and ecology of whole organisms. Articles submitted to *Biology Letters* benefit from its broad scope and readership, dedicated media promotion and an average turnaround time of 4 weeks to first decision. The journal is particularly suited to research that requires high visibility due to its cross-disciplinary nature or novel findings.

Copyright © 2008 The Royal Society

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, this publication may only be reproduced, stored or transmitted, in any form or by any other means, with the prior permission in writing of the publisher, or in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. In particular, the Society permits the making of a single photocopy of an article from this issue (under Sections 29 and 38 of this Act) for an individual for the purposes of research or private study.

SUBSCRIPTIONS

In 2009 *Biology Letters* (ISSN 1744-9561) will be published bimonthly, with six issues a year. Full details of subscriptions may be obtained either by contacting our journal fulfilment agent, Portland Customer Services, Commerce Way, Colchester CO2 8HP; tel: +44 (0)1206 796351; fax: +44 (0)1206 799331; email: sales@portland-services.com or by visiting our website at publishing.royalsociety.org/subscribers. From 2008 personal subscriptions are available for this journal – see prices. Full ordering information can be obtained from Portland Customer Services. These rates apply to bona fide individual use only. They must be paid by personal cheque or credit card, and orders cannot be delivered to an institutional address. The Royal Society is Registered Charity No 207043
