Meeting report

145 Biodiversity research sets sail: showcasing the diversity of marine life T. J. Vidal

Animal behaviour

146 Tactical reproductive parasitism via larval cannibalism in Peruvian poison frogs J. L. Brown, V. Morales & K. Summers

152 From coprophagy to predation: a dung beetle that kills millipedes T. R. Larson, A. Lopera, A. Foydorov & E. G€omer

156 Sexual segregation of pelagic sharks and the potential threat from fisheries C. R. McFadden, N. Quinn, L. L. Strosnider, P. Tarpani & D. W. Sims

160 Latent inhibition of predator recognition by embryo: amphibians M. C. O. Ferrari & D. P. Chivers

163 Swamp sparrows modulate vocal performance in an aggressive context A. S. Dalley, S. Nakatsu & W. A. Stacey

166 Lactating red squirrels experiencing high heat load occupy less insulated nests C. U. Galleotti, O. T. Fletcher, S. Boxion, R. M. Hodges, A. G. McAdam & M. C. Humphries

169 Evidence for egg discrimination reducing fledged rejection attempts in a small cuckoo host A. Antonov, B. C. Stokke, A. Mikaelsson & E. Skuladottir

172 Calculated reciprocity after all: computation behind token transfers in orang-utans V. Dukas, M. Pi€, M. Naumann, B. Thierry & J. Call

176 Indirect cues of nest predation risk and avian reproductive decisions M. M€ohnk€onen, I. Kramer, T. Kananoja & B. Thierry

178 Sex allocation by the gregarious dung beetle that kills millipedes T. R. Larson, A. Lopera, A. Foydorov & E. G€omer

182 Parental effects on offspring life histories: when are they important? R. B. O’Hara

183 Production and perception of communicatory signals in a noisy environment D. A. Luther & R. H. Wiley

187 Assessment and decision-making in a Caribbean damselfish: nest-site quality influences prioritization of courtship and brood defence J. M. Herbers, C. L. Enderle, A. Garem & M. R. Raffles

191 Interactions between background matching and motion during visual detection can explain why cryptic animals keep still C. C. Swaincote & J. Krause

195 Free amino acids as phagostimulants in cricket nymphal guts: support for the ‘Candymaker’ hypothesis S. Warryck, E. Va€el, D. Raudsepp & S. J. Simpson

197 The impact of host aggressiveness on sex allocation by the gregarious parasitoid wasp Ceratoziza plumipes (L.) T. Takaue

Biodiversity research sets sail:

194 Free amino acids as phagostimulants in cricket nymphal guts: support for the ‘Candymaker’ hypothesis S. Warryck, E. Va€el, D. Raudsepp & S. J. Simpson

197 The impact of host aggressiveness on sex allocation by the gregarious parasitoid wasp Ceratoziza plumipes (L.) T. Takaue

199 Interactions between background matching and motion during visual detection can explain why cryptic animals keep still C. C. Swaincote & J. Krause

204 Opinion piece. Marine mammals’ influence on ecosystem processes affecting fisheries in the Barents Sea is trivial P. J. Collard

207 Tropical freshwater alteration alters hummingbird movement patterns A. S. Hedley & M. G. Betts

211 Comment. Selective harvesting with equations: comment on ‘Should hunting mortality mimic the patterns of natural mortality?’ R. B. O’Hara

213 Invited reply. With or without equations: what are the dos and don’ts of hunting? R. Biele, A. Mysterud & J. E. Swenson

215 Consistent male–male paternity provided by genetic compatibility and hatching success T. P. Satoh, T. Sado, M. Nishida & M. Miya

218 Moderation of pathogen-induced mortality: the role of density in Bacillus thuringiensis virulence R. A. Raynor & J. H. Pomand

225 Flight behaviour attenuates the costs of reproduction in a long-lived bird: large clutch size is associated with low survival in the presence of a highly virulent disease A. C. Tait, K. M. Tait & D. W. Sims

229 Flight behaviour attenuates the costs of reproduction in a long-lived bird: large clutch size is associated with low survival in the presence of a highly virulent disease A. C. Tait, K. M. Tait & D. W. Sims

232 Consistent male–male paternity provided by genetic compatibility and hatching success T. P. Satoh, T. Sado, M. Nishida & M. Miya
