Meeting report

289 New frontiers in biologging science
C. Ruiz & C. C. Hay

Animal behaviour

292 Design complexity of termite-fishing tools of chimpanzees (Pan troglodytes)
P. Bressan & G. Zucchi

297 Stopover decision during migration: physiological conditions predict nocturnal restlessness in wild passerines
L. Fusari, M. Cardinale, C. Care
R. W. Grimmet

306 Behavioural phase polyphenism in the Australian plague locust (Chortoicetes terminifera)

313 Social structure influences extra-pair paternity in socially monogamous mammals
A. Cohas & D. Allainé

319 Opinion piece. An examination of environmental surveys of single-locus units of bacterial diversity from broad environmental samples
D. A. Coomes & L. Sack

320 Reduced heterozygosity impairs physiological conditions predict nocturnal restlessness in wild passerines
J. R. Pannell

326 Registered Charity No 207043

Biomechanics

331 Opinion piece. Raising the sauropterygian neck: it costs more to get less function
R. S. Seymour

337 Reduced abundance of insects and spiders linked to radiation at Chernobyl 20 years after the accident
S. M. Hoban, T. S. McCleary, J. L. Fitzpatrick & J. P. Evans

343 Comment. Free radicals run in primate reproduction and survival in a female primate
J. E. Mank & H. Ellegren

345 Invited reply. Response to comment on Coomes et al. ‘Scaling of xylem vessels and veins’ in the leaves of oak species’
D. A. Coomes & L. Sack

347 Stem sarcopterygians have primitive polybasal fin articulation
M. Zhu & X. Yu

352 The scaling of green space coverage in European cities
C. A. Price & B. J. Enquist

356 Population genetics

359 The genome sizes of megabats (Chiroptera: Pteropodidae) are remarkably constrained
R. S. Seymour

360 Ockham’s razor gone blunt: coenzyme Q adaptation and redox balance in tropical reef fishes
M. Gajfman, W. C. Danley, R. De Nys & M. Depczynski

364 Stable isotopes document the trophic structure of a deep-sea cephalopod: the Australian plague locust
A. Cohas & D. Allainé

367 Landscape modelling spatial turnover in their rate of molecular evolution
L. Bromham

372 Palaeontology

373 Opinion piece. The scaling of xylem vessels and veins within the leaves of oak species’
D. A. Coomes, R. B. Johnson, B. Nabholz, S. Giller & B. Eller

375 Opinion piece. Effective population size and the rate and pattern of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

Population ecology

378 A tiger cannot change its stripes: using a three-dimensional model to match images of living tigers and tiger skins
L. Pitts, P. Lovell, N. Patil, N. S. Kumar, A. M. Copeland & B. U. Karanth

381 Opinion piece. Are sex-biased genes more dispensable?
J. E. Marks & H. Ellegren

383 A tiger cannot change its stripes: using a three-dimensional model to match images of living tigers and tiger skins
L. Pitts, P. Lovell, N. Patil, N. S. Kumar, A. M. Copeland & B. U. Karanth

384 Genetic evidence for a plant RNA virus
R. R. Tinline, D. Ball, C. J. Kyle & R. N. White

387 Landscape modelling spatial turnover in their rate of molecular evolution
L. Bromham

388 Comment. Comment on Coomes et al. ‘Scaling of xylem vessels and veins within the leaves of oak species’
C. A. Price & B. J. Enquist

391 Opinion piece. Free radicals run in lizard reproduction and survival in a female primate
J. E. Mank & H. Ellegren

394 Upper-limit mutation rate estimation for a plant RNA virus
L. Bromham

397 Modelling mitochondrial site polymorphisms to infer the number of segregating units and mutation rate M. D. Rendy, M. D. Woodham & A. Doid

399 Opinion piece. What do species vary in their rate of molecular evolution?
L. Bromham

399 Opinion piece. Evolutionary rate variation in Old World monkeys
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

399 Opinion piece. Are sex-biased genes more dispensable?
J. E. Marks & H. Ellegren

403 Opinion piece. What do species vary in their rate of molecular evolution?
L. Bromham

405 Evolutionary rate variation in Old World monkeys
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

407 Opinion piece. Effective population size and the rate and pattern of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

411 Mitochondrial genomes: metabolic rate, longevity and the rate of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

413 Opinion piece. Effective population size and the rate and pattern of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

417 Opinion piece. Effective population size and the rate and pattern of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

421 Opinion piece. Effective population size and the rate and pattern of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

424 Opinion piece. Effective population size and the rate and pattern of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

427 Opinion piece. Effective population size and the rate and pattern of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

432 Opinion piece. Effective population size and the rate and pattern of molecular evolution
N. Eeley, J. Lee, Z. Peng, Y.-H. E. Loh & S. V. V.

435 Invited reply. Response to comment on Coomes et al. Scaling of xylem vessels and veins within the leaves of oak species’
D. A. Coomes & L. Sack

438 Comment. Comment on Coomes et al. Scaling of xylem vessels and veins within the leaves of oak species’
C. A. Price & B. J. Enquist

438 Comment. Comment on Coomes et al. Scaling of xylem vessels and veins within the leaves of oak species’
C. A. Price & B. J. Enquist

438 Comment. Comment on Coomes et al. Scaling of xylem vessels and veins within the leaves of oak species’
C. A. Price & B. J. Enquist

438 Comment. Comment on Coomes et al. Scaling of xylem vessels and veins within the leaves of oak species’
C. A. Price & B. J. Enquist

438 Comment. Comment on Coomes et al. Scaling of xylem vessels and veins within the leaves of oak species’
C. A. Price & B. J. Enquist

438 Comment. Comment on Coomes et al. Scaling of xylem vessels and veins within the leaves of oak species’
C. A. Price & B. J. Enquist

438 Comment. Comment on Coomes et al. Scaling of xylem vessels and veins within the leaves of oak species’
C. A. Price & B. J. Enquist
