Meeting report
289 New frontiers in biologging science
C. A. Price & B. J. Enquist

Animal behaviour
293 Design complexity in termite-fishing tools of chimpanzees
(pan troglodytes)
E. Ferrari & C. Nunn
297 The beluga whale produces two pulses to form its sonar signal
M. G. Lambers & M. Castellote
302 Stopover decision during migration: physiological conditions predict rectorial restlessness in wild passerines
L. Fusi, M. Cardinali, C. Carere & B. W. Slater
306 Behavioural phase polyphenism in American butternut and forest mammals
R. F. Leary & F. W. Allendorf
C. C. Muhlfeld, S. T. Kalinowski, S. E. Schlarbaum & J. Romero-Severson
S. M. Hoban, T. S. McCleary, J. L. Fitzpatrick & J. P. Evans

Biomechanics
137 Opinion piece. Raising the sauropod
Biomechanics

Conservation biology
320 Reduced heterozygosity impacts sperm quality in endangered mammals
J. S. Hoppin & J. P. Evens

Geography
324 Hybridization rapidly reduces fitness
Geographically extensive
M. Olson, M. Wilson, T. Uteb & C. Balison

Genome biology
347 The genome sizes of megabats (Chiroptera: Pteropodidae) are remarkably constrained
J. D. L. Smith & T. R. Gregory

Global change biology
352 The scaling of green space coverage in European cities
R. A. Fuller & R. J. Gaston

Marine biology
360 Okaham’s razor gone blunt: coenzyme Q adaptation and redox balance in tropical reef fishes
M. Gagnon, W. C. Dunlap, R. N. D. Noya & M. Depczynski
364 Stable isotopes document the trophic structure of a deep-sea cephalopod assemblage including giant ocelot and giant squid
Y. Chen, V. J. Ahsot, J. Tipte & P. Richard

Neurobiology
368 Tiger moths and the threat of bats: decision-making based on the activity of a single sensory neuron

Palaeontology
372 Stem sarcopterygians have primitive polychaete-like articulation
A. J. Wilson, S. B. Long & R. R. Tindle

Pathopoiesis
376 Function and hydrostatics in the stem sarcopterygians have primitive polychaete-like articulation
J.-P. Lin

Population ecology
381 A tiger cannot change its stripes: using a three-dimensional model to match images of living tigers and tiger skins
L. Pihl, P. Lovell, N. Patil, N. S. Kumar, A. M. Gopalanmury & K. U. Karanth

Population genetics
387 Landscape modelling spatial bottlenecks: implications for raccoon rabies disease spread

Special feature
Whole organism perspectives on understanding molecular evolution
Guest edited by Lindell Bromham
