

Meeting report

- 433 **Animal migration: linking models and data beyond taxonomic limits**
S. Bauer, Z. Barta, B. J. Ens, G. C. Hays, J. M. McNamara & M. Klaassen
- 436 **150 years beyond Darwin's *Origin of species*: reviewing new approaches to reconstruct early animal phylogeny**
R. Loesel

Animal behaviour

- 439 **Stress and the costs of extra-territorial movement in a social carnivore**
A. J. Young & S. L. Monfort
- 442 **Hypoxic coma as a strategy to survive inundation in a salt-marsh inhabiting spider**
J. Pétilion, W. Montaigne & D. Renault
- 446 **Adaptive social immunity in leaf-cutting ants**
T. N. Walker & W. O. H. Hughes
- 449 **Field crickets change mating preferences using remembered social information**
N. W. Bailey & M. Zuk
- 452 **Pre-natal stress amplifies the immediate behavioural responses to acute pain in piglets**
K. M. D. Rutherford, S. K. Robson, R. D. Donald, S. Jarvis, D. A. Sandercock, E. M. Scott, A. M. Nolan & A. B. Lawrence
- 455 **Kea (*Nestor notabilis*) consider spatial relationships between objects in the support problem**
A. M. I. Auersperg, G. K. Gajdon & L. Huber
- 459 **A quantitative threshold for nest-mate recognition in a paper social wasp**
A. Cini, L. Gioli & R. Cervo
- 462 **Social structure of primate interaction networks facilitates the emergence of cooperation**
B. Voelkl & C. Kasper
- 465 **Hitchhiking behaviour in the obligatory upstream migration of amphidromous snails**
Y. Kano
- 469 **Nectar, not colour, may lure insects to their death**
K. F. Bennett & A. M. Ellison
- 473 **Where do penguins go during the inter-breeding period? Using geolocation to track the winter dispersion of the macaroni penguin**
C. A. Bost, J. B. Thiebot, D. Pinaud, Y. Chérel & P. N. Trathan
- 477 **Larval zebrafish rapidly sense the water flow of a predator's strike**
M. J. McHenry, K. E. Feitl, J. A. Strother & W. J. Van Trump
- 480 **Stress hormone dynamics: an adaptation to migration?**
A. L. K. Nilsson & M. I. Sandell
- 484 **Macrogeographical variation in the song of a widely distributed African warbler**
L. Benedict & R. C. K. Bowie

Biomechanics

- 488 **Morphology, performance, fitness: functional insight into a post-Pleistocene radiation of mosquitofish**
R. B. Langerhans

Community ecology

- 492 **Opinion piece. Missing the rarest: is the positive interspecific abundance–distribution relationship a truly general macroecological pattern?**
A. Komonen, J. Päävinen & J. S. Kotiaho

Conservation biology

- 495 **Large population sizes mitigate negative effects of variable weather conditions on fruit set in two spring woodland orchids**
H. Jacquemyn, R. Brys & O. Honnay
- 499 **Quantitative analysis of the effects of the exotic Argentine ant on seed-dispersal mutualisms**
M. A. Rodriguez-Cabal, K. L. Stuble, M. A. Nuñez & N. J. Sanders

Evolutionary biology

- 503 **Opinion piece. Darwin would have loved DNA: celebrating Darwin 200**
L. Bromham
- 506 **Does a predatory insect contribute to the divergence between cave- and surface-adapted fish populations?**
M. Tobler
- 510 **Gliding hexapods and the origins of insect aerial behaviour**
S. P. Yanoviak, M. Kaspari & R. Dudley
- 513 **Positive Darwinian selection results in resistance to cardioactive toxins in true toads (*Anura: Bufonidae*)**
D. J. Moore, D. C. T. Halliday, D. M. Rowell, A. J. Robinson & J. S. Keogh
- 517 **Body size differences do not arise from divergent mate preferences in a species pair of threespine stickleback**
M. L. Head, E. A. Price & J. W. Boughman
- 521 **Evolution of seahorses' upright posture was linked to Oligocene expansion of seagrass habitats**
P. R. Teske & L. B. Beheregaray

Evolutionary developmental biology

- 524 **Humans at tropical latitudes produce more females**
K. J. Navara
- 528 **Skin of the Cretaceous mosasaur *Plotosaurus*: implications for aquatic adaptations in giant marine reptiles**
J. Lindgren, C. Alwmark, M. W. Caldwell & A. R. Fiorillo

Global change biology

- 532 **Global changes and animal phenotypic responses: melanin-based plumage redness of scops owls increased with temperature and rainfall during the last century**
P. Galeotti, D. Rubolini, R. Sacchi & M. Fasola

- 535 **Methane emission by plant communities in an alpine meadow on the Qinghai-Tibetan Plateau: a new experimental study of alpine meadows and oat pasture**
S. Wang, X. Yang, X. Lin, Y. Hu, C. Luo, G. Xu, Z. Zhang, A. Su, X. Chang, Z. Chao & J. Duan
- 539 **Climate change effects on migration phenology may mismatch brood parasitic cuckoos and their hosts**
N. Saino, D. Rubolini, E. Lehikoinen, L. V. Sokolov, A. Bonisoli-Alquati, R. Ambrosini, G. Boncoraglio & A. P. Møller
- 542 **Climate change and sexual size dimorphism in an Arctic spider**
T. T. Høye, J. U. Hammel, T. Fuchs & S. Toft

Marine biology

- 545 **Foraging segregation between two closely related shearwaters breeding in sympatry**
J. Navarro, M. G. Forero, J. González-Solis, J. M. Igual, J. Bécarea & K. A. Hobson
- 549 **Effects of food on bacterial community composition associated with the copepod *Acartia tonsa* Dana**
K. Tang, C. Dziallas, K. Hutalle-Schmelzer & H.-P. Grossart

Neurobiology

- 554 **Dynamic neuromodulation of aggression by vasotocin: influence of social context and social phenotype in territorial songbirds**
J. L. Goodson, D. Kabelik & S. E. Schrock

Palaeontology

- 557 **Postcranial skeletal pneumaticity and air-sacs in the earliest pterosaurs**
R. J. Butler, P. M. Barrett & D. J. Gower
- 561 **Comment. Coincidence or evidence: was the sabretooth cat *Smilodon* social?**
C. Kiffner
- 563 **Invited reply. Sociality in Rancho La Brea *Smilodon*: arguments favour 'evidence' over 'coincidence'**
B. Van Valkenburgh, T. Maddox, P. J. Funston, M. G. L. Mills, G. F. Grether & C. Carbone

Physiology

- 565 **Sonar-induced temporary hearing loss in dolphins**
T. A. Mooney, P. E. Nachtigall & S. Vlachos
- 568 **Effects of floral thermogenesis on pollen function in Asian skunk cabbage *Symplocarpus renifolius***
R. S. Seymour, Y. Ito, Y. Onda & K. Ito

Population ecology

- 571 **Plant height–crown radius and canopy coverage–density relationships determine above-ground biomass–density relationship in stressful environments**
X. Dai, X. Jia, W. Zhang, Y. Bai, J. Zhang, Y. Wang & G. Wang

Population genetics

- 574 **Consanguinity and susceptibility to infectious diseases in humans**
E. J. Lyons, A. J. Frodsham, L. Zhang, A. V. S. Hill & W. Amos

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science
