Meeting report

721 Host-parasite interactions: real or tolerable but never stop running
J. E. Evans

725 Probing aggressive motivation in a trap-building predator
D. Mayntz, S. Toft & F. Vollrath

Animal behaviour

729 Opinion piece. Kleptotherapy: an additional category of thermostatic behavior, and a possible example in sea kraits (Laticauda colubrina, Lamprophiidae)
B. W. Brook, H. R. Akcakaya, D. A. Keith, G. M. Mace, R. G. Pearson & M. B. Araújo

732 Nutrient balance affects foraging behavior of a trap-building predator
D. Mayntz, S. Toft & F. Vollrath

735 Solar activity affects avian timing of reproduction
G. Csibra, V. Southgate, M. H. Johnson, T. Osborne & D. Nettle

739 Host–parasite interactions: resist or tolerate but never stop running
M. E. Evans & S. Sauce

741 Monkey and human exhibit similar mechanisms
W. Curnel & K. Lomans

746 Jaws, song, and sexual selection in spiny tailed lizards

749 Evidence of an evolutionary precursor to human language affiliation in a non-human primate
A. D. Endress, D. Cahill, S. Block, & E. A. MacDougall-Shackleton

752 Allotrians are trusted based on non-verbal cues
S. L. C. van der Pijl, T. N. Rosenstiel & S. M. Eppley

755 Aggressive use of Satanic 마련 by an anti-lice jumping spider
T. N. Rosenstiel & S. M. Eppley

758 Textile and associated harem maintenance ability in free-ranging grey-headed flying-foxes, Pteropus poliocephalus
S. M. Kline, J. A. Wilburgen & E. V. Valko

762 Probing aggressive motivation in a cichlid fish
A. Elliott & M. Collard

765 Self-fertilisation tends towards daughters among lesser-rushing co-invests in Randalls
T. Y. Field, T. W. Fawcett, A. P. Bazuk & D. Nettleship

769 Predictive motor activation during action observation in human infants
V. Southgate, M. R. Johnson, T. Osborne & G. Col Temperature

Community ecology

773 Herbrooke release through cascading risk effects
M. H. Schmidt-Erfurth & E. Stengele

777 Sperm waves: the obvious answer is the right one; a response to ‘filtering the races: is the positive interspecific abundance–distribution relationship a truly general macroecological pattern?’
T. M. Blackburn & B. J. Gaston

779 Invited reply. On the obvious positive interspecific relationship between abundance and distribution: a reply to Blackburn and Gaston
J. S. Kotsakis, A. Komoren & J. Pakken

Evolutionary biology

781 Rapid induction of immune defense-dependent phosphorylation in adult male lizards
M. X. Ruiz-González, Y. Moret & M. F. Rosen

784 Mph polymorphisms fail to explain the heritability of phytohaemagglutinin-induced skin swelling in a wild passerine
C. Bonneau, J. S. Srinivasan, M. Richard, O. Chatal & C. Senn

788 Should I stay or should I go? The Ectodysplasin locus is associated with vulnerability to fungal attack
L. Kernaléguen, P. Richard & R. D. H. Barrett

792 Female presence influences sperm velocity in the guppy
C. Caspari, A. V. Fridh & A. Pizarro

795 Sexual selection against deleterious mutations via viable male search success
R. MacLean, M. W. White & D. O. Rutledge

797 A distinct selection cost associated with potential co-option of antibacterial immunity in bat-like whales
B. M. Sadd & P. Schmid-Hempel

802 The evolution of growth rates on an expanding range edge
B. L. Phillips

805 Environmentally induced responses through the analysis of the F1A2F2E8 gene
T. N. Rosenstiel & S. M. Eppley

809 Bitter taste perception in Neanderthals
B. M. Sadd & P. Schmid-Hempel

812 The evolution of growth rates on an expanding range edge
B. L. Phillips

817 Life history, sexual dimorphism and ‘ornamental’ feathers in the mesozoic bird Confuciusornis sanctus
M. S. Peters & D. S. Peters

Global change biology

821 ‘Tales of Symphons’, extinction dynamics in response to past climate change in Madagascar rainforests
E. S. Moore, M. E. Brown & R. J. Willis

826 Climate change is the dark sky sheep
J. S. Kotsakis & J. Pakken

Marine biology

830 Whisker isotopic signature detects migration patterns and multi-year intra- and inter-individual foraging strategies in fur seals
T. M. Blackburn, P. Richard & G. Curren

835 Melanocins, skin and immune responses to past climate change, in How many

838 Archaeological remains in the oral cavity of fetal rapidus support inference of early inactivity
T. M. Blackburn & B. J. Gaston

841 High-fidelity X-ray micro-tomography of rodent host and host-host interactions
J. S. Kotiaho, A. Komonen & J. Päivinen

Pathogen biology

845 Crowded hosts promote hatching vulnerable to fungal attack
G. C. Kibota, J. K. Pull & L. I. Saps

849 Flavivirus and the determination of encephalitis by rodent measurements
M. Elliott & M. Collard

853 Strategic (adaptive) hypothermia in Physiology
C. P. H. D. Rundle

857 Long-lived sperm in the geothermal
M. J. F. Brown

863 Strategic (adaptive) hypothermia in
C. P. H. D. Rundle

Volume title page and table of contents

Evolutionary developmental biology

877 Life history, sexual dimorphism and ‘ornamental’ feathers in the mesozoic bird Confuciusornis sanctus
M. S. Peters & D. S. Peters

879 Invited reply. On the obvious positive interspecific relationship between abundance and distribution: a reply to Blackburn and Gaston
J. S. Kotsakis, A. Komoren & J. Pakken

882 The evolution of growth rates on an expanding range edge
B. L. Phillips

885 Environmentally induced responses through the analysis of the F1A2F2E8 gene
T. N. Rosenstiel & S. M. Eppley

890 Bitter taste perception in Neanderthals
B. M. Sadd & P. Schmid-Hempel

894 High-fidelity X-ray micro-tomography of rodent host and host-host interactions
J. S. Kotiaho, A. Komonen & J. Päivinen

Phylogeny

899 Flavivirus and the determination of encephalitis by rodent measurements
M. Elliott & M. Collard

903 Strategic (adaptive) hypothermia in Physiology
C. P. H. D. Rundle

907 Long-lived sperm in the geothermal
M. J. F. Brown

911 'Tales of Symphons', extinction dynamics in response to past climate change in Madagascar rainforests
E. S. Moore, M. E. Brown & R. J. Willis

916 Climate change is the dark sky sheep
J. S. Kotsakis & J. Pakken

Population genetics

921 Opinion piece. Adaptation as organism design
A. Gardner

925 flourished in the palaeocene
S. M. Kline, J. A. Wilburgen & E. V. Valko

929 Probing aggressive motivation in a trap-building predator
D. Mayntz, S. Toft & F. Vollrath

932 Nutrient balance affects foraging behavior of a trap-building predator
D. Mayntz, S. Toft & F. Vollrath

939 Solar activity affects avian timing of reproduction
G. Csibra, V. Southgate, M. H. Johnson, T. Osborne & D. Nettle

942 Evidence of an evolutionary precursor to human language affiliation in a non-human primate
A. D. Endress, D. Cahill, S. Block, & E. A. MacDougall-Shackleton

945 Aggressive use of Satanic 마련 by an anti-lice jumping spider
T. N. Rosenstiel & S. M. Eppley

948 Textile and associated harem maintenance ability in free-ranging grey-headed flying-foxes, Pteropus poliocephalus
S. M. Kline, J. A. Wilburgen & E. V. Valko

952 Probing aggressive motivation in a cichlid fish
A. Elliott & M. Collard

955 Host–parasite interactions: resist or tolerate but never stop running
M. E. Evans & S. Sauce

959 Host–parasite interactions: resist or tolerate but never stop running
M. E. Evans & S. Sauce
