Meeting report

143 Giant panda conservation science: how far we have come
A. R. Swann et al.

146 Organisms on the move: ecology and evolution of dispersal
M. Cullen, M. S. Santamaria, A. Coulon & M. Soem

Animal behaviour

149 Repeatability of nest morphology in African weaver birds
P. T. Walsh, M. Harvell, W. D. Borell & S. D. Hoyt

152 Experience influences aggressive behaviour in the Argentine ant and E. Van Wilgoren, J. Cleveringa & N. D. Tuinen

156 Complex vocal imitation during ontogeny in a bat
M. Kirksmith, M. Naq, M. Metz, F. Mayer & G. von Helversen

160 With his memory magnetically erased, a monkey knows he is uncertain

167 Individual consistency in flight initiation distances in burrowing owls: a new hypothesis on disturbance-induced habitat selection
M. Carre & J. J. Tella

171 Visual cues and parental favouritism in a nocturnal bird
D. Parr et al.

177 Host and independent reproduction in the parasitic Murinae Murina
M. A. Forst & D. K. Nash

180 Extraoral nest clutter alters foraging preferences of a predatory ant
M. Vildner & M. D. Eriksson

185 Sex- and mate-quality-guarding in a lidded crab
B. N. Chen et al.

188 Social influences of competition on impulsive choices in domestic chickens
H. Ariga, A. Kawamura & T. Matsuzawa

191 Perceptually predicts spatial responses to food manipulations in free-ranging great tits (Parus major)
van Ommen & E. Matthysen

195 Dietary cantonese availability, sexual signalling and functional fertility in sticklebacks
T. W. Pike, D. Blount, J. Lindström & N. B. Macrì

197 Ontogeny of long bone geometry in capuchin monkeys (Cebus albifrons and Cebus apella): implications for locomotor development and life history
J. W. Young, D. Fernández & J. C. Rainé

199 Running-specific protheses limit ground-force during sprinting
A. M. Grabowski, C. P. McGowan, W. J. McDermott, M. T. Beale, R. Kram & H. M. Henn

Community ecology

202 Ants defend aphids against lethal disease
C. Nielsen, A. A. Agrawal & A. T. Hawk

205 Frequency matching of vocalizations among northern elephant seals: drifting like a falling leaf
Y. Naito & D. P. Costa

209 Mountain lions prey selectively on prion-infected mule deer

Conservation biology

212 Saving Darwin’s mice: evolutionary genetics for the recovery of the Floreana mockingbird
P. E. Hoek, M. A. Beaumont, K. E. James, R. B. Grant & P. E. Grant & L. F. Keller

Evolutionary biology

216 Line birth among iguanid lizards predates Phocene-Plissocene glaciations
J. A. Schulte & F. Moreno-Roark

217 Sperm competition and sperm length influence the rate of mammalian spermatogenesis
S. A. Barmi & P. Stockley

222 Inbreeding depression in adaptive plasticity under predation risk in a freshwater snail
I. Auld & R. A. Molyneux

223 Do female ornament traits indicate quality in sticklebacks?
C. E. Krumm, M. M. Conner, N. T. Hobbs & D. Hermance

225 The biogeography of introgression in the critically endangered African monkey Anubiasceus Liberia

227 Evolutionary developmental biology

230 Food availability differentially influences young males’ and females’ competitive performance in accordance with sexual selection theory
J. F. Bennett, R. Board & R. Markovits

Global change biology

232 Climate change increases the likelihood of catastrophic avian mortality events during extreme heat waves
A. E. McKeehan & J. O. Wolf

236 Tropical warming and the dynamics of endangered primates
B. Vanderhoff & E. Post

Marine biology

238 Contrasting patterns of genetic structure and dispersal ability in anti-attended and non-attended Tuberculatus aphids
J. Ya

239 Offspring sex varies with maternal investment ability: empirical demonstration based on cross-fostering
K. A. Robert, L. E. Schwartz & H. R. Mills

242 Comment. Colonization history and ancestry of northeastern coyotes
Y. R. Kays, A. Curtis & J. Kirkman

246 Invited reply. Reply to Wheeldon et al. “Colonization history and ancestry of northeastern coyotes”
R. Kays, A. Curtis & J. Kirkman

248 Evolutionary developmental biology

250 Evolutionary developmental biology

254 Climate change biology

256 Climate change increases the likelihood of catastrophic avian mortality events during extreme heat waves
A. E. McKeehan & J. O. Wolf

259 Tropical warming and the dynamics of endangered primates
B. Vanderhoff & E. Post

Palaeontology

263 Cope’s Rule and Bemner’s theory: patterns of diversity and gigantism in eurypterids and Paleozoic vertebrates
J. C. Campbell & J. S. Brady

Physiology

270 Phagocytic B cells in a reptile

274 Intra-individual variation allows an explicit test of the hygric hypothesis for discontinuous gas exchange in insects

278 Food availability differentially influences young males’ and females’ competitive performance in accordance with sexual selection theory
J. F. Bennett, R. Board & R. Markovits

282 Frequency matching of vocalizations among northern elephant seals: drifting like a falling leaf
Y. Naito & D. P. Costa

286 Offspring sex varies with maternal investment ability: empirical demonstration based on cross-fostering
K. A. Robert, L. E. Schwartz & H. R. Mills

289 Comment. Colonization history and ancestry of northeastern coyotes
Y. R. Kays, A. Curtis & J. Kirkman

292 Invited reply. Reply to Wheeldon et al. “Colonization history and ancestry of northeastern coyotes”
R. Kays, A. Curtis & J. Kirkman

294 Evolutionary developmental biology

299 Sperm competition and sperm length influence the rate of mammalian spermatogenesis
S. A. Barmi & P. Stockley

302 Inbreeding depression in adaptive plasticity under predation risk in a freshwater snail
I. Auld & R. A. Molyneux

307 Do female ornament traits indicate quality in sticklebacks?
C. E. Krumm, M. M. Conner, N. T. Hobbs & D. Hermance

310 The biogeography of introgression in the critically endangered African monkey Anubiasceus Liberia

313 Evolutionary biology

316 Line birth among iguanid lizards predates Phocene-Plissocene glaciations
J. A. Schulte & F. Moreno-Roark

319 Sperm competition and sperm length influence the rate of mammalian spermatogenesis
S. A. Barmi & P. Stockley

323 Climate change biology

326 Climate change increases the likelihood of catastrophic avian mortality events during extreme heat waves
A. E. McKeehan & J. O. Wolf

329 Tropical warming and the dynamics of endangered primates
B. Vanderhoff & E. Post

332 Palaeontology

335 Cope’s Rule and Bemner’s theory: patterns of diversity and gigantism in eurypterids and Paleozoic vertebrates
J. C. Campbell & J. S. Brady

338 Physiology

342 Phagocytic B cells in a reptile

346 Intra-individual variation allows an explicit test of the hygric hypothesis for discontinuous gas exchange in insects

350 Evolutionary developmental biology

354 Climate change biology

357 Climate change increases the likelihood of catastrophic avian mortality events during extreme heat waves
A. E. McKeehan & J. O. Wolf

360 Tropical warming and the dynamics of endangered primates
B. Vanderhoff & E. Post

363 Palaeontology

366 Cope’s Rule and Bemner’s theory: patterns of diversity and gigantism in eurypterids and Paleozoic vertebrates
J. C. Campbell & J. S. Brady

370 Physiology

374 Phagocytic B cells in a reptile

378 Frequency matching of vocalizations to inner-ear sensitivity along for discontinuous gas exchange in insects

382 Evolutionary developmental biology

385 Climate change biology

388 Climate change increases the likelihood of catastrophic avian mortality events during extreme heat waves
A. E. McKeehan & J. O. Wolf

391 Tropical warming and the dynamics of endangered primates
B. Vanderhoff & E. Post

394 Palaeontology

397 Cope’s Rule and Bemner’s theory: patterns of diversity and gigantism in eurypterids and Paleozoic vertebrates
J. C. Campbell & J. S. Brady

401 Physiology

405 Phagocytic B cells in a reptile

409 Frequency matching of vocalizations to inner-ear sensitivity along for discontinuous gas exchange in insects

412 Evolutionary developmental biology

416 Climate change biology

419 Climate change increases the likelihood of catastrophic avian mortality events during extreme heat waves
A. E. McKeehan & J. O. Wolf

422 Tropical warming and the dynamics of endangered primates
B. Vanderhoff & E. Post

425 Palaeontology

428 Cope’s Rule and Bemner’s theory: patterns of diversity and gigantism in eurypterids and Paleozoic vertebrates
J. C. Campbell & J. S. Brady
