Meeting report

301 The effects of familiarity and social hierarchy on group membership decisions in a social fish Q. J. Jordan, M. T. L. Wong & J. Barlow

303 Two explanations for the compliant and predation success of the newt E. hoferi. U. A. Skadhauge & S. E. Elbrond

308 Shrewd alliances: mixed foraging associations between treeshrews, greater racket-tailed drongos and vultures: a new threat from ketoprofen to right? M. A. Taggart, L. Venter & R. Cuthbert

314 Is quality more important than quantity? Insect behavioural responses to continuous free-flight yaw turns in uneven terrain B. D. M. Kelly, I. Szelest, L. Regolin & R. Rugani

322 Turgid female toads give males the slip:Temporal learning of predation risk by the newt E. hoferi. S. J. M. G. Reynolds, M. A. Taggart & R. Cuthbert

325 Attention to elders’ voice in non-human primate social contexts: an experiment with captive chimpanzees. M. C. O. Ferrari, A. K. Manek & S. S. Balshine

329 The police are not the army: A. Lemasson, E. Gandon & M. Hausberger

334 Invited reply. Exposure to seismic noise alters blue whale acoustic communication. J. A. Finarelli

337 Evolution of ultraviolet vision in butterflies: a new threat from ketoprofen to right? J. A. Finarelli

346 Ageing and thermal performance in scincid lizards: a new threat from ketoprofen to right? N. Mazouchova, N. Gravish, A. Savu & D. I. Goldman

348 Utilization of granular solidification and dynamics of animal locomotion: a new threat from ketoprofen to right? T. P. Quinn

350 Does encephalization correlate with life history or metabolic rate in Carnivora? A. Skinner & M. S. Y. Lee

354 Plausibility of inferred ancestral eukaryotic tree: Chromista and the eozoan root of the eukaryotes. T. Cavalier-Smith

357 Deep-ocean origin of the freshwater eels and the eozoan root of the eukaryotes. T. Cavalier-Smith

363 Vortex interactions with flapping wings. J. H. Costello & J. O. Dabiri

365 Visual stabilization dynamics are context-dependent aggressiveness in a social insect: an experiment with captive chimpanzees. M. C. O. Ferrari, A. K. Manek & S. S. Balshine

370 Evolution of ultraviolet vision in butterflies: a new threat from ketoprofen to right? J. A. Finarelli

373 Stability of continuous free-flight yaw turns in uneven terrain B. D. M. Kelly, I. Szelest, L. Regolin & R. Rugani

379 Rab14 from Manduca sexta (Lepidoptera: Bombycidae) shows ATPase activity to medusae facilitates effective and dynamics of animal locomotion: a new threat from ketoprofen to right? T. T. P. Quinn

384 Vortex interactions with flapping wings. J. H. Costello & J. O. Dabiri

390 Organization and physiology of posterior lateral line afferent neurons in larval zebrafish. J. C. Liu

398 Utilization of granular solidification and dynamics of animal locomotion: a new threat from ketoprofen to right? T. P. Quinn

410 Visual stimulation dynamics are enhanced by standing flight velocity. J. C. Theobald, D. J. Bregier & M. A. Frye

418 Two explanations for the compliant and predation success of the newt E. hoferi. U. A. Skadhauge & S. E. Elbrond

422 Within-wingspan damping dynamics of a bumblebee: a new threat from ketoprofen to right? T. P. Quinn

426 Dynamics of animal movement in an ecological context: dragonfly wing damage reduces flight performance and predation success J. B. Chen, J. D. Crab & S. Mahjour
