Meeting report

431 Social insects inspire human design
C. T. Holloway, B. M. Clark, D. Moore, B. P. Gunness, C. A. Peck & A. A. Smith

434 Body-size distributions and site spectra: universal indicators of biodiversity
O. L. Peterson & B. A. Belgard

438 Emerging diseases in Chiroptera: why bats?
C. Unkerti, M. S. Moore, T. Schroyens & C. Verge

Animal behaviour

441 Social calls used by a lead-roosting bat to signal location
C. Classen, C. R. Colen & J. M. Verheij

445 Experimental evidence that sentinel bats use their ears to locate predators
T. W. Pike & K. N. Laland

449 Social calls used by a leaf-roosting bat to signal location
D. M. Hawley & D. T. Blumstein

453 Can eggs in a cavity be a female parasitoid's secondary sexual signal? Male nest sites may preferentially feed near diseased females
A. A. Y.-H. Chan, P. Giraldo-Perez, S. Smith, B. R. Capinera & B. R. Capinera

458 Anthropogenic noise affects risk assessment and vigilance in a cooperative mammal
W. Goymann, F. Spina, A. Ferri & L. Fusani

462 Sickness behaviour acting as an evolutionary trap? Male house finches preferentially feed near diseased-companions
K. M. Bouwman & D. M. Hawley

466 Conformitc learning in nine-spined stickleback's foraging decisions
T. Y. Par & E. N. Leach

469 Efficiency of coding in macaque vocal communication

472 Relaxed predation risk reduces but does not eliminate sociality in birds
M. G. Hoffmann

475 The importance of an avian co-forager reduces vigilance in a cooperative mammal

479 Body fat influences departure from stopover sites in migratory birds: evidence from whole-island telemetry
N. G. Cowley, T. A. Forst & L. Faux

Biomechanics

483 Gradients of strain and strain rate in the hollow muscular organs of soft-bodied animals
T. Thompson, K. R. Taylor & C. Cento

486 Do toads have a jump on how far they hop? Pre-landing activity timing and intensity in forelimb muscles of hopping Bufo marinus
G. B. Goll, T. Bellis & B. Cunat

Community ecology

490 More individuals but fewer species: testing the ‘more individuals hypothesis’ in a diverse tropical fauna
S. P. McElravy, M. G. Weaver & F. Shi

494 Cheaters in mutualism networks
J. Gómez, L. Patricia C. Merchán, P. R. Guzmán & J. M. Olsson

Conservation biology

498 Marine no-take zone rapidly benefits marine biodiversity
L. Péchegn, D. Grémeil, R. J. M. Crawford & P. C. Butler

Evolutionary biology

502 Opinion piece. Landscape evolutionsomics
D. B. Lowery

505 Evolution of virulence when transmission occurs before disease
E. E. Osmar & A. P. Dietson

509 Air-breathing adaptation in a marine Devonian lungfish
A. M. Chamberl & A. Long

513 Spatial and temporal scales of marine spatial patterns of sea lice levels on sea trout in western Norway: implications for the distracted prey hypothesis
A. Y. W. Chan, S. G. Roche & L. W. Simmons

Evolutionary developmental biology

517 Development of the pseudothumb in frogs
M. Tsuchi & N. J. Hazel

521 Fluorescent feather asymmetry in relation to corticosterone levels is sex-dependent in Eurasian treecreepers (Certhia familiaris) nestlings
S. Helle, P. Suorsa, E. Huhta & H. Haakkaran

525 Alarm substance from adult zoobenthos alters early embryonic development in offspring
S. M. Morino, I. D. Ruzicka, J. I. Sanchez & A. M. Chamberl

532 Comment. Palaeobiology of the Cretaceous bird Confuciusornis: an assessment of terrestrial avian phylogeny
K. M. Bouwman & D. M. Hawley

537 Double cones are used for colour discrimination in the red fish, Rhinecanthus aculeatus
Y. Pignatelli, C. Champa, J. Marshall & M. Vossrey

Neurobiology

540 Selective attentional transfer and neurogenesis in the prefrontal cortex
T. Clow, M. A. Johnson & A. M. Cart

Pathogen biology

544 Metal-tolerant and spatial patterns of bacterial and parasitic load on seedling roots and nearby soil: implications for the more individuals hypothesis
S. M. Sahney, M. J. Benton & P. A. Ferr

Physiology

548 Temporal and spatial patterns of sea lice levels on sea trout in western Norway: implications for the distracted prey hypothesis
S. M. Morino, I. D. Ruzicka, J. I. Sanchez & A. M. Chamberl

Physiology

552 Selection on innate immunity and the body condition in Florida scrub-jays (Aphelocoma coerulescens) in relation to predation risk
M. A. Slordal & L. F. MacCulloch

555 Tagman real-time quantitative PCR for identification of western flower thrips (Frankliniella occidentalis) for plant quarantine

Population ecology

559 Selection on innate immunity and the body condition in Florida scrub-jays (Aphelocoma coerulescens) in relation to predation risk
M. A. Slordal & L. F. MacCulloch

566 Spatially mismatched trophic cascades: cyclically outbreaking geometrids and their larval parasitoids
S. R. Magen, J. O. Jepsen, T. Schmitt & A. Min

570 Sex-dependent immunocompetence
C. B. Adler, C. Blessing, K. J. G. & M. C. G. Stellar

Population biology

562 Diet effects on honeybee immunocompetence
C. Harper, F. Ducloz, D. Crauser & J. C. Hausi

566 Spatially mismatched trophic cascades: cyclically outbreaking geometrids and their larval parasitoids
S. R. Magen, J. O. Jepsen, T. Schmitt & A. Min

570 Sex-dependent immunocompetence
C. B. Adler, F. Ducloz, D. Crauser & J. C. Hausi

Volume 6 • Number 4 • Pages 431–574
