633 Alarm calls elicit predator-specific taste-rejection behaviour by predators

604 Differential sensitivity to conspecific and
doing so

600 Evidence for distributed light sensing in nocturnal anurans

610 To females of a noctuid moth, male courtship songs are nothing more than

617 Sepia officinalis sensing in the skin of cuttlefish,
sacrifice themselves to

613 Persistence of song types in Darwin's Finches. Geospiza fortis, unrelated females

647 Genetic evidence of illegal trade in the decrease in dark Soay sheep

651 Proximate determinants of telomere

654 A spectacular new Philippine monitor lizard reveals a hidden biogeographic

663 The blood parasite

674 Hearing is not necessarily believing in

678 Comment. No evidence for warming

682 The feeding ecology of little auks raises

685 The lantern shark's light switch:

703 Association between mammalian

715 Scaling relationship between tree

717 Animal behaviour

730 Higher reproductive skew among birds than mammals in cooperatively

733 Community ecology

752 Lost in space? Searching for directions

766 Disease association mapping in

774 Early emergence in a butterfly causally

807 Population ecology

808 Changes in age composition and

810 Meeting reports

813 Evolutionary biology

817 Proboscis monkeys reduces survival in a wild bird: a

820 No-climate thermal adaptation: implications for species' responses to

824 Global change biology

827 Gluten-free diet and higher consumption of
dominated by leaves and

834 Measuring the relative contributions of

838 Vocal memory in male birds: who

847 Gene discovery and functional studies

850 Disease association mapping in

854 No-climate thermal adaptation: implications for species' responses to

858 Global change biology

860 Population ecology

865 Changes in age composition and

868 Invited reply. A warming climate remains a plausible hypothesis

871 Individual specialists in a generalist

875 Scaling relationships between tree

878 Correlations

881 Fishes change spawning ground distribution in northeast Arctic cod

573 Lost in space? Searching for directions in the spatial modelling of individuals, populations and species ranges

576 Comparative analysis of marine ecosystems, workshops on predator–prey interactions

588 Persistence of song types in Darwin's Finches. Geospiza fortis, over four decades

592 Ectoparasite strategies associated with experience of losing

596 Breaking the trade-off: experimentally enhanced light sensing in the skin of cuttlefish, Sepia officinalis

601 Differential sensitivity to conspecific and
doing so

604 Evidence for distributed light sensing in nocturnal anurans

606 Individual specialists in a generalist

610 To females of a noctuid moth, male courtship songs are nothing more than

617 Sepia officinalis sensing in the skin of cuttlefish,
sacrifice themselves to

620 No-climate thermal adaptation: implications for species' responses to

624 Global change biology

628 Population ecology

632 Changes in age composition and

636 Community ecology

640 Field-level bird abundances are

644 Evolutionary biology

650 Proboscis monkeys reduces survival in a wild bird: a
