Meeting reports

641 Trench Connection
A.J. Jameson & T. Fuji

644 Integrating ecology into fishing management
J. H.W. Rankin, S. Phillips, A. Coscia & J. Farman

Animal behavior

645 Comment. Of global space or perceived place? Comment on Kelly et al.
A. Shanker & A. Day

D. M. Kelly, S. Durieux, C. Chavardi & G. Vallortigara

651 Attractions in networks: the effect of connections
L. E. Williams, J. E. Montevecchi, M. Benkendorff & C. Peene

654 Spontaneous discrimination of possible and impossible objects by newly hatched chicks
L. Ploog, K. Rogez, C. Stachler & G. Vallortigara

658 Androgens in fish: gene polymorphisms are associated with aggression in Japanese Akita dogs
S. Hirata, M. Tsujinaka & T. Hasegawa

661 Long-distance migrating species of birds
G. Beauchamp

664 Invited reply. A misunderstanding of the evolutionary significance of the diploid genome of the poison dart frogs of Northern Peru revisited

667 Commentary. The role of the palaeogenomics revolution in the study of palaeontological biodiversity
B. D. Peer, M. J. Kuehn, S. I. Rothstein & J. C. Senar

670 The evolution of the rhabdovirus in Xiphophorus nigrensis

674 Comment. Of global space or perceived place? Revisited
J. Grangier & P. J. Lester

678 Host-switching by a vertically transmitted rhabdovirus in Odorus guttatus
E. Defossez, B. Courbaud, B. Marcais, Giraudeau & R. I. M. Dunbar

683 Rain increases the energy cost of bat foraging
T. E. Strand, M. Thaler & K. D. Bodily

684 Host-switching by a vertically transmitted rhabdovirus in Xiphophorus nigrensis
E. Defossez, B. Courbaud, B. Marcais, Giraudeau & R. I. M. Dunbar

687 Spontaneous discrimination of possible and impossible objects by newly hatched chicks
L. Ploog, K. Rogez, C. Stachler & G. Vallortigara

692 Long-distance migrating species of birds
G. Beauchamp

699 Do interactions between plant and soil biota change with elevation? A study on fagus sylvatica in the Alps
E. Defossez, B. Courbaud, S. Masson, W. Thul Servat, C. Gardes & G. Kupfer

702 Community ecology

699 Do interactions between plant and soil biota change with elevation? A study on fagus sylvatica in the Alps
E. Defossez, B. Courbaud, S. Masson, W. Thul Servat, C. Gardes & G. Kupfer

703 Mechanism of birth in chimpanzees: evidence against a ‘hormonal’ mechanism
B. A. Phillimore, J. Rosindell, G. H. Thomas, S. T. Turvey & L. McInnes

707 Host-switching by a vertically transmitted rhabdovirus in Xiphophorus nigrensis
E. Defossez, B. Courbaud, B. Marcais, Giraudeau & R. I. M. Dunbar

710 Top predators suppress rather than facilitate plants in a trait-mediated trophic cascade

714 Workers in social: long-term changes of migratory bird assemblages facing climate change
L. Gobet, M. Jaffé & V. Devictor

718 Species-energy relationships in deep-sea molluscs

721 • Are soils in urban ecosystems compacted? A citywide analysis
J. L. Ahn, Z. G. Duan, S. A. McCormick, K. J. Ganster & J. R. Lawe

725 A golden swiftlet (Arasaninae) from the Middle Jurassic of China

729 Palaeontology

730 The evolutionary origin of the的感情 dart frogs of Northern Peru revisited

734 Host-switching by a vertically transmitted rhabdovirus in Xiphophorus nigrensis
E. Defossez, B. Courbaud, B. Marcais, Giraudeau & R. I. M. Dunbar

738 Evolutionary biology

737 Queen phenotypes regulate egg production in a termite
Y. Yamamoto & K. Matsuo

740 Bees and the city: big-brained passers in urban environments

746 Host-switching by a vertically transmitted rhabdovirus in Xiphophorus nigrensis
E. Defossez, B. Courbaud, B. Marcais, Giraudeau & R. I. M. Dunbar

753 Temporal changes in greenspace in a highly urbanized region

757 Evolutionary developmental biology

760 Measuring the effect of food availability on age at maturity and its ecological consequences in an animal community
M. N. Dollar, C. E. Peck & D. F.万一

767 Global change biology

770 • Why do some adult birds skip breeding? An experimental investigation in a long-lived bird
A. D. Robertson, M. K. Nöth, H. Weimberich & O. Chevalier

774 Climate change impact on Balearic shearwater through a trophic cascade
G. H. Thomas, S. T. Turvey & L. McInnes

778 Conservation biology

782 • Multiple lineages of lie pass through the E-6 boundary

789 Population genetics

796 Advergence in Müllerian mimicry: the case of the poison dart frogs of Northern Peru revisited

797 The role of the palaeogenomics revolution in the study of palaeontological biodiversity
B. D. Peer, M. J. Kuehn, S. I. Rothstein & J. C. Senar

799 Physiological

799 The energetics of low browsing in ungulates
G. D. Burton & D. M. Williamson

799 Conservation biology

782 • Multiple lineages of lie pass through the E-6 boundary

797 The role of the palaeogenomics revolution in the study of palaeontological biodiversity
B. D. Peer, M. J. Kuehn, S. I. Rothstein & J. C. Senar

802 Evolutionary biology

807 Evolutionary developmental biology

814 Host-switching by a vertically transmitted rhabdovirus in Xiphophorus nigrensis
E. Defossez, B. Courbaud, B. Marcais, Giraudeau & R. I. M. Dunbar

819 Host-switching by a vertically transmitted rhabdovirus in Xiphophorus nigrensis
E. Defossez, B. Courbaud, B. Marcais, Giraudeau & R. I. M. Dunbar

823 Population genetics

826 • Advergence in Müllerian mimicry: the case of the poison dart frogs of Northern Peru revisited
M. N. Dollar, C. E. Peck & D. F.万一

827 Measuring the effect of food availability on age at maturity and its ecological consequences in an animal community
M. N. Dollar, C. E. Peck & D. F.万一

831 Climate change impact on Balearic shearwater through a trophic cascade
G. H. Thomas, S. T. Turvey & L. McInnes

838 Conservation biology

844 Advergence in Müllerian mimicry: the case of the poison dart frogs of Northern Peru revisited
M. N. Dollar, C. E. Peck & D. F.万一

842 Measuring the effect of food availability on age at maturity and its ecological consequences in an animal community
M. N. Dollar, C. E. Peck & D. F.万一
