547 When it is costly to have a caring mother: Cross-hemisphere migration of a 25 g songbird
540 Working against gravity: horizontal honeybee care in earwigs
533 Care for kin: within-group relatedness and allomaternal care are positively correlated
530 Ambient noise increases missed detections in transfer between pedestrians
523 Cryptic sociality in rattlesnakes (Cryptic asymmetry: unreliable signals mask reproductive isolation among cynipid gall wasp populations)
520 The directional flow of visual information disrupts the circadian rhythm but not the circatidal rhythm in the mangrove cricket
516 It is optimal to be optimistic about survival
505 Climate change experiments in temperate terrestrial vertebrates
500 Social learning of a communicative signal in captive chimpanzees
498 RNAi of the circadian clock gene period2 disrupts the circadian rhythm but not the circatidal rhythm in the mangrove cricket
495 Hermit crabs perceive the extent of their wing size in the aphid
492 Chicks, like children, spontaneously reorient in response in herbivores
488 RNAi of the circadian clock gene
484 Climate change experiments in temperate terrestrial vertebrates
