March 2012
volume 8 · number 5 · pages 689–896

Meeting reports
689 Drought-induced forest decline: causes, trends and implications
J. Herold, M. W. Prior, S. Woodcock & D. B. B. Thomas
Using phenotypes in conservation: new methods and improved outcomes
LOCAL SITES
698 Animal behaviour: exploring the movements of aerial fauna through radio-move remote sensing

Biometrica
700 Massive, solidified bone in the wing of a solanoid cormorant
M. Healey & M. B. Hyslop

Community ecology
704 David Smith: changing the composition of intertidal communities
D. J. Glasspool, S. M. B. Hyslop & T. C. Glass
708 Diversity–disparity relationships: frequency and intensity interact
J. D. Smith, D. J. Smith & J. C. L. Smith
A Building B, R. S. Hyslop

Conservation biology
712 Wildland-forest transition benefits rare birds, bats and plants
E. P. H. Friend, M. I. Friend & B. Friend
M. Friend, K. Friend & M. Friend

Evolutionary biology
716 More than 1000 ultraconserved elements provide evidence that turtles are the sister group of archosaurs
J. C. Friend, M. Friend & M. Friend
A. Friend, M. Friend & M. Friend

Phylogenies
856 Fruit-eating, among other primates, is motivated by inequity
A. P. Friend, M. Friend & M. Friend
F. Friend, A. Friend & M. Friend

Population biology
849 Leptin, a tool of parasites?
J. Friend, M. Friend & M. Friend
A. Friend, M. Friend & M. Friend

Ecology
846 Caught in the act: the first record of minimum convex hull mass estimations of
A. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
842 Minimum convex hull mass estimations of
A. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Fossil evidence for an Asian origin of mollusk shells followed by fortuitous dispersal to Africa and Australasia
J. Friend, M. Friend & M. Friend
S. Friend, M. Friend & M. Friend

Geology
839 Gender- and stressor-specific microRNA expression in Tribolium confusum
J. Friend, M. Friend & M. Friend
A. Friend, M. Friend & M. Friend

Genetics
838 Faunal isotope records reveal trophic and
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Pathogen biology
833 Testing models of dental development in the
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Physiology
829 Molecular dating of human-to-bovid host
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Biomechanics
825 Faunal isotope records reveal trophic and
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Conservation biology
821 Live-bearing manta ray: how the embryo
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Ecology
817 Increased oceanic microplastic debris enhances
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Pathogen biology
814 Minimum convex hull mass estimations of
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Population ecology
809 Ctenophore population recruits entirely through
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Community ecology
802 Data from selective harvests underestimate
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Global change biology
801 Human punishment is motivated by inequity
A. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Marine biology
798 Ecological drift with climate warming
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Population ecology
795 Spatial contagion drives colonization and
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
790 More than 1000 ultraconserved elements provide evidence that turtles are the sister group of archosaurs
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
783 More than 1000 ultraconserved elements provide evidence that turtles are the sister group of archosaurs
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Population genetics
787 Spatial patterning female provides support for role of the W chromosome in avian sex determination
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
782 Leaf morphology shift linked to climate
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Population genetics
779 Coastal rangia: biomass estimation at low biomass in clutches of red-eyed
d. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
776 Table scraps: inter-trophic food provisioning
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Population genetics
771 Environmental DNA is the independent scientific academy
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
769 More than 1000 ultraconserved elements provide evidence that turtles are the sister group of archosaurs
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
764 David Smith: changing the composition of intertidal communities
D. J. Glasspool, S. M. B. Hyslop & T. C. Glass
768 Diversity–disparity relationships: frequency and intensity interact
J. D. Smith, D. J. Smith & J. C. L. Smith

Gene expression
762 Minimum convex hull mass estimations of
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
757 Food transfer in captive monkeys: an experiment on partner choice
C. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
755 Songbirds learn songs least degraded by
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
752 Molecular dating of human-to-bovid host
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
749 Leptin, a tool of parasites?
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
747 Ecological drift with climate warming
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
744 Hot or not? Thermal reactions to social contact
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
741 Minimum convex hull mass estimations of
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
738 Biological invasions and the acoustic niche:
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
735 Songbirds learn songs least degraded by
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
732 Much more than 1000 ultraconserved elements provide evidence that turtles are the sister group of archosaurs
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
728 Much more than 1000 ultraconserved elements provide evidence that turtles are the sister group of archosaurs
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
725 Biological invasions and the acoustic niche:
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
722 Much more than 1000 ultraconserved elements provide evidence that turtles are the sister group of archosaurs
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
720 Songbirds learn songs least degraded by
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
718 Flight responses by a migratory seabird
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
714 Biological invasions and the acoustic niche:
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
710 Flight responses by a migratory seabird
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
706 The structure of a butterflies delicacy swamp is crucial to its foraging cooperation
C. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
702 The structure of a butterflies delicacy swamp is crucial to its foraging cooperation
C. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
700 Massive, solidified bone in the wing of a solanoid cormorant
M. Healey & M. B. Hyslop

Evolutionary biology
699 Molecular dating of human-to-bovid host
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
696 Minimum convex hull mass estimations of
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
693 Songbirds learn songs least degraded by
J. Friend, M. Friend & M. Friend
P. Friend, M. Friend & M. Friend

Evolutionary biology
689 Drought-induced forest decline: causes, trends and implications
J. Herold, M. W. Prior, S. Woodcock & D. B. B. Thomas
Using phenotypes in conservation: new methods and improved outcomes
LOCAL SITES
688 Ruder aquaculture: exploring the movements of aerial fauna through radio-move remote sensing
