Editorial Board

Brian Charlesworth, Editor-in-Chief
Department of Genetics, University of Edinburgh
Nigel Bennett, Handling Editor
Department of Genetics, University of Edinburgh
Nigel Carter, Handling Editor
Department of Anthropology, University of Cambridge
Paul Snigdowski, Handling Editor
National Centre for Biological Sciences, India

Aims and Scope

Launched as an independent journal in 2005 Biology Letters is a primarily online, peer-reviewed journal that publishes short, high-quality articles from across the biological sciences. The scope of Biology Letters is wide: publishing high-quality research articles and opinion pieces in any area of the biological sciences. However, we have particular strengths in the biology, evolution and ecology of whole organisms. We also publish in other areas of biology, such as molecular biology, and neurobiology, where these biases on organismal, population and evolutionary biology. Articles submitted to Biology Letters benefit from its broad scope and readership, dedicated media promotion and an average turn-round time of 4-6 weeks to first decision. The journal is particularly suited to research that requires high visibility due to its cross-disciplinary nature or novel findings.

Categories

Papers published in Biology Letters will be categorised by subject, which include:

- animal biology
- biomechanics
- community ecology
- conservation biology
- evolutionary biology
- evolutionary developmental biology
- genome biology
- global change biology
- marine biology
- molecular evolution
- neurobiology
- palaeontology
- pathogen biology
- phylogeny
- physiology
- population ecology
- population genetics

Electronic Submission Details

The Royal Society’s electronic-submission and peer-review service provides Biology Letters authors with the facility to submit their papers online. The service allows users to upload files in a reliable and user-friendly way, using a web-based system. When your paper is received, an immediate acknowledgement is sent that details how you can track your contribution online.

For full submission guidelines, further details about the journal and access to all journal content please visit the Biology Letters website at rbl.royalsocietypublishing.org

For further information on the Society’s activities, please contact the following departments on the extensions listed by dialing +44 (0)20 7839 5561, or visit the Society’s Web site (royalsociety.org).

Research Support (UK grants and fellowships)
Research Appointments (Fellowships): 2542
Research Grants: 2233
International travel Grants: 2555
Newton International Fellowships: 2559

Science Policy Centre
General enquiries: 2550
Science Communication
General enquiries: 2573

Library and Information Services
Library/archive enquiries: 2606

2013 Biology Letters (ISSN 1744-9651) will be published bimonthly, with six issues a year.

Subscriptions

In 2013 Biology Letters (ISSN 1744-9651) will be published bimonthly, with six issues a year. Full details of subscriptions may be obtained either by contacting your journal fulfillment agent, Portland Customer Services, Commerce Way, Coldharbour CR2 8RP, tel: +44 (0) 1283 796 351, fax: +44 (0) 1283 799 331; email: sales@portland-services.com or by visiting our website at royalsocietypublishing.org/subscriptions. From 2008 personal subscriptions are available at this journal – see prices. Full ordering information can be obtained from Portland Customer Services. These rates apply to bona fide individual use only. They must be paid by personal cheque or credit card, and orders cannot be delivered to an institutional address. The Royal Society is Registered Charity No. 207043.
